Campus Friends update

The *Campus Friends* program now has a total of 171 volunteers, which is representative of approximately one-half of the number of full-time, permanent faculty and staff members at Coastal.

Coastal's *Campus Friends* program was developed in response to the acknowledgment that new college students often feel lost, homesick, apprehensive, and often confused and overwhelmed. Statistics indicate that a student's decision to stay at an institution is often made within the first few weeks of the semester.

Campus Friends volunteer orientation sessions were held recently; however, a written summary of the orientation is

available in EMS 105 for faculty and staff volunteers who were unable to attend.

Due to the tremendous response, volunteers will each be assigned approximately five new freshmen students instead of 10 students as originally anticipated.

The *Campus Friends* committee is in the process of developing a list of students' names, addresses and telephone numbers in order to provide this information to volunteers.

For more information about *Campus Friends*, contact committee chair June Brown at extension 2016 or Tina Davis at extension 2258. ■
