The Continuing Education Office of USC-Coastal Carolina College is offering a special course in amateur photography 6-8 p.m. on Tuesdays Oct. 7 - Dec. 16 in room 204 of the college Academic Building.

"This course is designed to take the mystery out of photography," explains Director of Continuing Education Dr. Sally Z. Hare. "You'll learn how to take clear, sharp imaginative photographs without investing in expensive, sophisticated equipment."

Hare says the course will cover cameras, film, exposure, lenses, lighting, composition and darkroom techniques.

"It's especially designed for users of 35mm cameras, but if you have an instamatic or a polaroid, you can still learn a lot," Hare says.

The instructor for the course, which is entitled "Beginning Photography," is Steve Candal, a professional photographer. The class will meet on 10 Tuesday evenings and tuition is \$50, which includes all materials except film and camera. (Although film will be provided for the first class.)

The course is limited to 10 persons. You may register by calling the Office of Continuing Education at the college (448-1481 or 347-3161). The registration deadline is 5 p.m., Oct. 6th.
