Libraries at Coastal and HGTC share online technologies

Coastal Carolina University's Kimbel Library moved a step closer to the "virtual library age" recently when President Ingle signed an agreement with Horry-Georgetown Technical College which allows the libraries of the two institutions to purchase and share new online information access technologies.

The two libraries have signed with Ovid Technologies, Inc., an online database supplier, to provide internet access to several periodical indexes. Michael Lackey, head of public services at Coastal's Kimbel Library, said, "Using Internet resources at HGTC, were impressed with Ovid's powerful searching capabilities across multiple databases. Coastal and HGTC share access to UMI Periodical Abstracts and Books-In-Print. UMI Periodical Abstracts, produced by University Microfilm International, is a large database covering more than 1,600 journals and magazines. All citations provide summaries of articles, and more than 600 of the titles covered provide full-text articles online. Books-In-Print, from Bowker Publishing, is a searchable database of all books currently in print in the United States. Coastal students and faculty also have access to MLA Bibliography, a language and literature index, and HGTC has access to CINAHL, a nursing and allied health database.

"This is a giant leap forward in providing access to bibliographic data," said Lackey. "Using Internet connections to access information from remote servers instead of locally-mounted databases is the wave of the future. Ovid will supply all technical support and database maintenance, freeing our librarians for other duties." The periodical indexes currently available in Kimbel Library are stored in compact disc format and are only accessible on single-user workstations. With the Ovid system, up to five simultaneous users will be able to access the shared databases. Two simultaneous users will be able to access MLA Bibliography. Access will be available through the World Wide Web using web browsers such as Netscape or Internet Explorer and by telnet connections for computers that are not using Windows. According to Lackey, access will be available from any computer connected to Coastal's or HGTC's local area networks with an internet connection. This includes computer labs and faculty offices. Kimbel Library plans to have four Internet-connected computers available for student use. "When remote access becomes a reality, students will be able to access Ovid from their home computers," said Lackey. "This is the beginning of the virtual library age; you won't necessarily have to walk through the front door of the library to access the information inside."

Lackey said that the partnership between the Coastal and HGTC libraries allows both institutions to increase access to information while holding down costs and avoiding a duplication of services. Lackey hopes there will be future opportunities for the public libraries and Horry County Schools to join this partnership. "The county, city, and school libraries have expressed an interest in this sort of database access," said Lackey. "Hopefully we can build on this initial partnership agreement to include other libraries in the future."

Coastal's modern dance class to perform Poe's works

Students in Coastal's modern dance class will perform a set of dances based on poems and stories by Edgar Allan Poe in the Little Theater, located in the Admissions Building, on Saturday, Dec. 7 at 7:30 p.m. The presentation is free and open to the public.

The performance will include dances set to recordings by the Alan Parsons Project's Tales of Mystery and Imagination, an album of songs based on and including the text of several Poe works, such as A Dream Within a Dream, The Raven and The Tell-Tale Heart.

Maggie Santee, instructor of modern dance at Coastal and director of the program, says that the presentation "is designed to give audiences and students unfamiliar with modern dance a unique opportunity to learn about this particular form of artistic expression." Santee hopes that the class will lead to the development of a modern dance company in the area.

Coastal Carolina students performing in the program are:
- Melinda R. Heuber, freshman marine science major from Quincy, Ill.
- Heather Howe, sophomore sociology major from Toms River, N.J.
- Rhonda Huddleston, junior elementary education major from Jackson, N.J.
- Noel Kirzenbaum, sophomore art studio major from Conway, S.C.
- Samantha Lohr, junior marketing major from Myrtle Beach, S.C.
- Susanah Wetmore, sophomore dramatic arts major from Middletown, N.J.

Students assisting with the presentation are Ashley Cribb, junior English major from Longs, S.C.; Nicole King, sophomore English major from Conway; and Rachel Meyer, senior mathematics major from Conway, S.C. Guest performers include Virginia Queen, Will Shaw and Kristen Weir.

In addition to instructing the class, Santee is a double major at Coastal, working toward a bachelor's degree in secondary education and English, with a minor in dramatic arts. She owned and operated Lee Street Dance Center in Charleston, W.Va., before relocating to the Myrtle Beach area. She also teaches at Litchfield Dance Center.

rectical debut at Well Recita Hall of Carnegie Hall in 1989 and sing the title role of Puccini's Rucacc at New York City Opera at Lincoln Center in 1993. She has performed with opera companies and symphony orchestras throughout the United States. A native of South Carolina, she earned a master's degree from the University of South Carolina.

Composer-pianist Gregory Boatwright earned a D.M.A. degree from the University of South Carolina, where he worked closely with the Hungarian concert conductor-arranger Zepel Baran and the renowned piano instructor Max Camp. Boatwright toured with Daraz's Concert Choir an accompanist and piano in Europe, Asia and the United States. A resident of Columbia, he is musical director at Township and FBN Productions, a company which stages 20th-century American opera.

David Bankston, assistant professor of music at Coastal, has sung leading roles with many American companies including Houston Grand Opera, Washington Opera, Opera Theatre of St. Louis and New Orleans Opera. Bankston also has been a featured soloist with the USC Symphony Orchestra, the South Carolina Philharmonic and the Greenville Symphony. He earned a D.M.A. at the University of South Carolina.

The concert was conceived by the performers and the songs were arranged by Boatwright. "The concert is designed to pay tribute to great composers of the last 300 years, as well as to celebrate the joy of Christmas, the glory of the human voice, and the legacy of the piano as a virtuoso instrument," said Boatwright.

Teacher Festival celebration held for Education majors

Seniors in the elementary education, early childhood, and secondary education programs celebrated their achievements during the biannual Teacher Festival Education on Nov. 21 and 22.

Participants submitted and explained work they completed in methods courses to faculty and to underclassmen education majors.

"The festival was designed to assist senior education majors in assimilating information from their methods courses before they begin practice teaching during the 1997 spring semester," said Jessee Brown.

Isa Jona Adams also was a coordinator of the event.

COASTAL CAROLINA PEOPLE

Karen Carpenter spoke at Whitmore Park Middle School's eighth-grade Recognition and Honors Assembly on Nov. 7. Students in Ron Spjut's Future Connections class were presented certificates of appreciation from Coastal Carolina and the South Carolina Middle School Project for the six months service learning project producing the video tape, School and Community Partnership: Business, Schools, and the South Carolina School-To-Work Transition Act of 1996. The video is part of a series, Pivotal Pathways to Professionalism, sponsored by Coastal Carolina and the South Carolina Middle School Project. Students received a copy of the video from Coastal Carolina alumni David Maningo who presided at the assembly.

Marie Katsioloudes presented two papers at the Association For Research on Nonprofit Organizations and Voluntary Action (ARNOVA) national conference held in New York City, Nov. 7 through 9. The papers, "The Impact of the Internet on the Nonprofit Sector" and "The Relative Importance of Strategic Planning Activities in Nonprofit Organizations," were published in the Conference Proceedings. The second paper has been submitted for review to the Nonprofit Management and Leadership Journal. In addition, two of Katsioloudes' papers, "Iceland Drifting forwards and Leadership Journal," were published in the Human Systems Management Journal.

Jack Kendree and Claudia McCollough presented "Ethics in the Classroom" at the 19th annual Ethical Issues and Decision Making symposium held at Hilton Head Island on Nov. 9. The symposium was sponsored by the Men of the Presbyterian Churches of Hilton Head Island. Students and faculty from approximately 25 colleges and universities throughout the Southeast attended the annual symposium which is geared toward students and their ethical decision-making processes. Kendree and McCollough introduced a new facet to the conference, which will become a permanent session in future conferences, by establishing a forum in which faculty could discuss ethical issues confronted in their classrooms.

Allen Michie presented a paper, "The Reader Of, About, With, and In the Satire of Jane Austen's Northanger Abbey," at the Carolina Symposium on British Studies, which was held on campus Oct. 5 and 6. Michie also was a member of the local arrange committees for the event.

Joyce B. Parker made a presentation to English teachers at Socastee High School on Nov. 18, which included suggestions from Coastal's English Department on ways the high school could prepare students for entrance to Coastal Carolina. Parker also solicited suggestions from the school regarding how the university could help the schools.

Jill Sessions co-presented a paper with English major James 6. Guignard Jr. at the South Atlantic-Modern Language Association Conference held in Savannah, Ga. on Nov. 9. The paper, "A Dark and Coming Thing: The Regeneration of the African Self in Toni Morrison's Beloved," was the result of a year of collaboration between Sessions, Guignard and another Coastal student, Joyce Beemer. Funding for the research was provided through the Academic Enhancement Grants program. Guignard became the first English major at Coastal to present a paper at a major professional conference.
