## LIBRARY SERVICES

All faculty and staff are eligible for free computer searches which identify funding sources for research and other sponsored projects. To take advantage of this trial service, you must first obtain an "individual authorization slip" by calling Arlene McWhorter at the USC Office of Sponsored Programs and Research (SPAR), ext. 7093. Bring this authorization with you to Kimbel Library and complete a computer search request with one of the reference librarians.

The search will be conducted by a librarian at the Library Processing Center at USC-Columbia. The result of the search will be a print-out of appropriate funding sources with a brief description of the foundation and the types of grants awarded. Search results are usually received within two weeks.

## STUDENT PARTICIPATION IN EXPO '83

Please announce.

Faculty, Staff, and students are invited to attend, without charge, "Expo '83" being held at the State Fairgrounds in Columbia on November 15 and 16.

The companies who are exhibiting in the Cantey Buildings are the support industries and service houses that provide the materials, components and services to South Carolina's industrial firms.

Seminars and workshops will be presented in Seawell's Restaurant to provide very practical information on marketing and manufacturing and you are welcome to attend those sessions of interest to you.

In the Hampton Building, procurement offices and prime contractors will exhibit items for which they are seeking new, competitive sources. One of Tec's mobile units will also be on display.

Your "pass" that will gain admission is your student identification. As an alternative, your instructor may present a trip roster to the registration booth at the fairgrounds on the day of your arrival. You will be issued student badges to all exhibits and workshops.

Expo '83 will afford you a concentrated picture of the South Carolina Industrial Support Industry.
