A Message From The Chancellor

I have had the opportunity to attend two functions of the Afro-American Student Organization in their recognition of Black History Month at Coastal Carolina College. The programs have been excellent and well planned; however, the most recent one, while an excellent program, suffered from lack of audience participation. I know that all of you are committed to our Affirmative Action goals and recognize the importance of our reinforcing the efforts of all student groups, but, especially the minority student groups and, therefore, I am asking each of you to participate in the two remaining programs and encourage students to participate as well.

We must provide opportunity and recognition for our minority students. Nothing helps this goal more than our involvement and giving of our time; therefore, I hope each one of you will join me in attendance at the next two events so that we can all learn from and support these fine young people.

Dr. Ron Eaglin
