Pianist Mac Frampton Concert Scheduled

Pianist Mac Frampton and his trio will perform Tuesday, March 29 at 8 p.m. in Wheelwright Auditorium.

A musician with a keen appreciation for the contemporary pop and jazz sounds, Frampton is at home in a wide variety of musical settings. In concert, he is known for his energetic performing style and appealing personality, and for the way he combines elements of pop, rock, and classical traditions to create his distinctive musical arrangements.

During the past 15 years, Frampton has taken his show to more than 1600 halls around the world. Although he performs some 100 dates each year, no two are the same. He designs every program to appeal to each individual audience. His program might include "Moonlight Sonata", "Rhapsody in Blue", "Sailing", "Thriller," or a string of audience requests which he turns into a spontaneous medley.

Frampton has appeared with dozens of symphony orchestras as well as performers Bill Cosby, Roberta Peters, Roberta Flack, John Davidson, and many more. He also has found time to release ten record albums and complete a motion picture sound track.

His show at Coastal will include solo segments as well as selections with a percussionist and bass player.

The Mac Frampton Show is presented by the Wheelwright Council for the Arts. Tickets are \$7 adults and \$4 for students, and are available at the Wheelwright Auditorium Box Office, ext. 2502.
