Monthly Budget Program for tuition offered

To assist students in planning and budgeting educational expenses, Coastal offers the Monthly Budget Program – an alternative budgeting service which divides annual tuition costs into manageable monthly payments.

The application fee for MBP is \$45. Life insurance, to protect the annual budgeted amount, is included in the program at no extra cost. Since the MBP is not a loan, there are no additional interest or finance charges.

To apply, students must complete a special worksheet outlining educational expenses and expected income and funding assistance. Once the application is received and approved, an account will be opened in the student's name. A statement will be sent to the student each month just before the monthly payment is due. Payments will automatically be submitted to Coastal. A record of each student's account will be maintained for the student and for Coastal.

The MBP is offered through The Tuition Plan, a subsidiary of Manufacturers Hanover Corporation.

For more information, call The Tuition Plan office toll-free at 1 (800) 343-0911. ♦
