The #!@T they don't say has been said

**CHAD NAYES**

Chances are, as a student at a relatively small university, you have heard the buzz around the recent YouTube video titled “Shit Chant Don’t Say.” If you aren’t aware, this video was posted to resemble the popular “Shit Girl Don’t Say” and “Shit Boy Don’t Say” video, which sarcastically poke fun at typical male and female stereotypes.

The video, created and posted by undergraduate students Hannah Greene and Sarah Stuck, racked up nearly 17,000 views in just 10 days on YouTube. That’s roughly 7,000 more views than students who attend Coastal.

However, if you are by chance one of the few students who hasn’t seen it, the video addresses some of the following themes among the Coastal community: parking, on-campus dining, traffic on Hwy. 501, lack of school spirit, our tiny basketball gym, bike check, the confusing pronunciation of the name of our mascot and many others.

“When you think about it, pretty much our entire student body, as well as professors, watched that video,” said Greene, a senior Communication major.

“On a weird level I feel like it brought not only our student body closer together, but it brought our student body closer to professors.”

Greene said the video by no means was created with any ill intentions, but strictly meant as a creative way of making people laugh. Still, though, Greene admitted she was concerned how the administration could take offense to the video.

“The (administration) main priority is to protect the university’s reputation, and taken the wrong way, parts of the video could seem detrimental to the school’s reputation, but that was never the intention,” said Greene.

The administration of Coastal took no disciplinary action against the students for their production of the video. Debrie Conner, Associate Vice President of University Relations, acknowledged the creativity and talent of the students who produced the spoof, yet still said there is an issue with the video.

“The only issue the Office of University Communication had with the video was the use of profanity in association with the unauthorized use of a university mark,” said Conner.

The introduction transitions from the title of the “Chanties” logo, to the video itself.

According the Office of University Communication on the Coastal website, the “University name, logo, athletic logo and seal are registered and fully protected identifiers and their use is carefully controlled.”

Students, on the other hand, seem very receptive of the video. Students can be heard joking about the video all around campus. Greene even said she has heard people who haven’t even seen it come up to her over the weekend and say something about it.

“I watched people who didn’t even know each other reciting lines together,” said Greene.

**NORMAN CONTINUES OFFSEASON SUCCESS**

**TJ SUNDBERG**

Everyone knew Josh Norman had potential, but not this much.

Coming off of a strong East-West Shrine Bowl performance in which Norman improved his draft status from a 6th or 7th round pick to a late 2nd or 3rd round pick, he was invited to the Senior Bowl in Mobile, Alabama. For those of you who do not know, the Senior Bowl in Mobile is the cream of the crop for NCAA seniors trying to make their way into the NFL.

Down in Mobile, Norman turned heads just like he did at the Shrine Bowl. Norman ran a 4.42 second 40-yard dash and measured in at 6’3” 203 pounds.

With a size and speed combination like Norman’s, he’s a strong safety’s body. Known for his confidence, Norman has not shied away from his confident ways since beginning his offseason success. For any of those who follow his Facebook status updates, you know exactly what I am talking about. And he has no reason not to be.

Norman appeared on Mike Mayock’s “Playbook to Watch” list coming out of the Shrine Bowl and was called the “most impressive prospect of the week” by NFLDraftScout.com’s Dave Brusler.

Sure Andrew Luck, Trent Richardson and RG3 are the names we are guaranteed to hear on draft day, but I know one name I’ll be listening closely for.

**SUCCESS WITH SEA LIONS**

**LEAH BARCELONA**

Bucky Hughey, of Garden City, Michigan, has called Myrtle Beach home for the past four years. She had a lot of opportunities in the area, especially when it comes to her major, Marine Science. Currently, she is interning at Pirates Voyage in North Myrtle Beach working with the sea lions.

“I’ve learned so much from working hands-on with the sea lions, it’s totally different from what we learn in class,” said Hughes. “We learn about California sea lions also at our internship but the sea lions at Pirates Voyage are from South America.”

Hughes said not only has she learned a lot about the species in general, but how different the sea lion species can be. While internining, she assists with training sessions and does household work like cleaning and

High expectations - Baseball team rusted ump Ray Smith in-practice
ALEXX ALTMAN

According to The Weather Channel, Mom., Feb. 6 it is supposed to be 71 degrees with scattered thunderstorms and a low of 39 degrees. It is normal for there to be a warmer winter in the south, but this is very unusual for the area.

However, the odd weather seems to be a favorite among students.

“I have loved having a warm winter, although I like wearing sweaters and scarves when it’s cold, having a warm winter has been nice,” said Gabrielle DeCenso, junior Early Childhood Education major. “You can do more things outside that would seem ridiculous to do if it were really cold. It has even been nice enough for me to go to the beach a few times.

The warm winter weather seems to be a taste of an early summer for students. According to Mark Malick, Severe Weather Liaison, the abnormally cool Pacific waters and the air patterns, or more commonly known as the air ocean pattern La Nina, is causing the sub-tropical ridge over the Atlantic that keeps the winter warmer and drier.

This means good news for college students.

“The temperatures will stay the same, above average, with occasional brief excursions of colder air as passing cold fronts sweep across the state every four to seven days,” said Malick.

What does this mean? Well, for one, students can still go to the beach in the winter.

“The warmer winter has caused the ocean temperatures to be a little warmer than normal this winter,” said Erin Bender, Senior Instructor for the Department of Marine Science.

It’s as if summer never really left.

World- Plans to remove Italian cruise ship expected to be announced by late March

According to Reuters, the owners of the capsized Italian cruise ship Costa Concordia are expected to announce their plans to remove the wreckage by the end of March.

Costa Cruises said in a statement it invited different salvage companies to fund the contract to eventually remove the ship.

Once the company is selected, the operation will take much time. Officials estimate the operation could take anywhere between seven and 10 months.

As for the captain of the ship, Francesco Schettino, who is blamed for the wreck by steering too close to shore, he is currently under house arrest. Schettino is also facing multiple charges of manslaughter and abandoning ship.

Rescue services have abandoned the search for bodies and are preparing to remove 2,300 tons of diesel fuel from the ship.

National- Stabilization of the ship, careful handling of metal parts and estimating the amount of work that will eventually remove the ship.

According to The Sun News, Harris County police recently investigated a car containing chemicals used to make methamphetamine at a parking lot near Kohl's in Surfside Beach.

The area was immediately evacuated for several hours before officials determined there was no immediate danger in the area.

Detectives claim there is no evidence the four suspects were cooking meth at the time of arrest, but there were remnants of a precursor cook as well as enough resources to make another batch.

Initially, two of the suspects were detained on suspicion of shoplifting from Kohl's while the others remained in the car.

**MEET THE GREEK**

**CARL NOGAS**

**Keonna Ramsey**

Senior

Beta Sigma Sigma

Delta Sigma Theta

**Where are you from?**

Charleston, South Carolina.

**What are your commitments outside of the Sorority?**

I have previously been a member of Eta Sigma Gamma, Health Promotions Honor Society, Leadership Challenge, and the National Pan-Hellenic Council, and the Immediate Past President of the Order of Omega, National Greek Honorary.

**What positions have you held within Alpha Delta Psi?**

I have served as Chapter Secretary, Vice President, and Chair of our Program Planning and Development Committee. I currently serve as the president of our chapter.

**What have you learned about leadership?**

Becoming an effective and respected leader, in a hard work and sacrifice. Often times you have to place your pride aside to do what is right for the people you serve.

**What is your favorite part about Greek Life?**

My favorite part of Greek Life is the unity. It's always a great time when we can sit down among each other regardless of our Greek-affiliation and bond as friends, sisters and brothers.

**WCCU RADIO UPDATE**

**LINDA S CHAVEZ**

The shows are back! All of last semester's on-air shows are on the air again! Make sure to tune in and listen to your favorite shows.

WCCU Radio management is looking for more on-air staff! If you are interested in hosting your own radio show, please contact anyone on the WCCU Radio staff to set up your time to audition. WCCU Radio is located on the second floor of Bill Bailey Hall in room 207. Come prepared with a complete concept of a show, your availability and a ready to show off your radio voice!

At the end of the school year approaches, all of the management staff is looking for those who have an interest in becoming the new managers of WCCU Radio. If you have a passion for radio and would like to take part in an amazing opportunity, contact the station's advisor, Patricia O'Connor at pocoono@coastal.edu to set up an interview.

WCCU Radio will host another benefit concert sometime in the spring. Express your interest now in what local artists you would like to see on our Facebook page. Like us at WCCU Radio.

If you are having trouble finding us on the station online, it is available on iTunes Radio, then College Radio, search "Coastal Carolina." There is also an app available on Android and iPhone, "Time In" and search "Coastal Carolina."

Listen live every hour of the day to WCCU Radio!

**SARA KASPER**

On Saturday, Jan. 28, five students represented Coastal Carolina University in the Big South Quiz Bowl. Team captain Jordan Ruth­reford led Jonathan Muhl, Amber Eckerd, Emma Johnson and Den­ny Clothey through tough weekly practices to prepare for the academic tournament at Wintthrop University.

Alpha Kappa Alpha sharpened their skills with questions from the National Academic Quiz Tournament organization that sets the rules for quiz bowls all over the nation on both high school and college levels. The questions cover a variety of topics. Team advisor Charmaine Tomczyk describes Quiz Bowl Tournament as "nerdy trivia," but a rigorous academic competition.

This year, Coastal placed third behind just UNC-Ashville and Liberty University, who snagged first place for their next competition. To get in­volved, contact Charmaine Tomczyk at charmaine@coastal.edu.

---

**AUSTIN LANZ**

From University Services to Greek life and academic pursuits and even a few special groups like the Paintball Club or Eco-Reps, club recruitment day was most interesting.

"We had more organizations than usual for this time of year. Last year, there were about 75. But this spring, we had over 100 come out," said Paula Drummond, Coordinator of Leadership and Civic Engagement. Drummond said the turnout this year was probably due to the weather, setup and entertainment. WCCU Radio came out and MC'd the event.

Some clubs that stood out to her were the Quidditch Club and the Campus Democracy/Republicans. Student government was also on hand signing up students for upcoming school elections. Also getting to know students were CUC's Greeks.

"It was fun hanging out with the clubs and students, listening to what their concerns with the school were so we can start addressing them at our meetings," said Branden Wiley, Secretary of Finance for SGA. According to Drummond, it was all in all a very successful day.

**RECRUITMENT IN THE ROOST**

**ALPHA KAPPA ALPHA**

**CASEY RUTKOWSKI**

Alpha Kappa Alpha Sorority Incorporated, part of the National Pan-Hellenic Council (NPHC), is acknowledged as an organization of the week. The history of AKA dates back to 20 women who founded it on Jan. 15, 1908.

The original founder was Ethel Hygeia Haynes Lyke. The Phi chapter of AKA was introduced to Coastal Carolina University in 1997. The chapter currently has 29 members.

"We gained a sisterhood while serving the community and learning leadership skills that will take me far in life," said Jashlyn Wilson, a member of AKA.

AKAs can be seen sporting their traditional colors of apple green and salmon pink around campus and their symbol is the Ivy Leaf. Their philosophy is the Heart of Extraordinary Service Project.

"One thing I love about Alpha Kappa Alpha Sorority, Incorporated, is that it emphasizes a lifetime of service that goes beyond the college years," said Kendra Bailey, a new member of AKA and delegate for NPHC.

The members of AKA have many ideas and events in progress for the upcoming semester, including uniting with other Greeks to make Relay for Life a success as well as organizing a M. 1908 pageant. Members are beyond proud and loving to the values and traditions of AKA.
There are a few things you should consider before going out and getting that tattoo you always wanted. Getting a tattoo without considering your career future can be a risky move in today’s working world. Even the most qualified, most experienced and most prepared job applicant can be denied an interview for their visible body art. Jobs that work closely with clients in a professional setting such as lawyers, public officials and accountants are still as traditionally conservative as always. Careers that involve working closely with children such as teachers or coaches also often how you are as a worker.

"Don't draw too much attention to yourself. What should be impressing to an employer should be your qualifications. Not your tattoos or piercings," said Buxa.

There are a few things you should consider you do your homework. It is important to know what kind of person your boss is. Jobs in the marine business such as lawyers, public officials and accountants are still as traditionally conservative as always. Careers that involve working closely with children such as teachers or coaches also often discourage showing off your ink.

"CUSTOMERS don’t want their young children running up to them saying, ‘Mommy, mommy I want a tattoo,’” said Melissa Beausaint, M.Ed., Placement Coordinator at the Career Services Center, as she recounts a time when she witnessed a youth swimming instructor wearing his shirt in keeping and advertising fields are becoming more lax restrictions on tattoos. Not just artists or musicians, but even in the corporate world. Jobs in the marketing and advertising fields are becoming more lax with their employees having tattoos.

Robert Bulsza, M.A., LPC and Internship Coordinator at the Career Services Centre, suggests getting a tattoo without considering as what kind of person your boss is. Getting a tattoo without considering what kind of person your boss is.

"Be as conservative as possible," said Buxa.

"It is common for many actors have rituals. Specifically, Jernigan has enjoyed working on some of the music professor David Bankston, another star of "Bigfoot," whom Jernigan had the privilege to work with prior to his attendance at CCL. He claims the experience of working with Bankston is a director changed his life. As a senior in high school Jernigan starred in his first show and loved it ever since.

"Whatever door the theater world provides, I just walk through it. For the past four years, that has been at Coastal," said Jernigan. Bigfoot is Jernigan's 11th show at CCL, some of which include "Music Man," "Hedda Gabler" and "Andrew Goosel" during this year's Fall semester. It is common for many actors have rituals. VIVA LA STOOL
Barstool Blackout Tour B
world’s biggest blacklight party

LEAH BARCELONA
Coastal Carolina University students will soon partake in the world’s largest black light party, coming to Myrtle Beach this spring. The Barstool Blackout tour will be coming to Myrtle Beach’s House of Blues on April 21, 2012. Barstool.com is sponsoring the tour. This website has become a resource for college students to find new music, sports information and hilarious videos. 2nd Coastal Carolina is the 376th school the tour will be visiting this year. It is known for the path of destruction it leaves, and is equipped with lasers, fog, black lights and anything that glows in the dark.

“I bought my tickets the first day they were on sale,” said Kevin Schlendker, a junior in Communications. “Barstool is very selective on which schools they choose to visit, and it’s huge for our student body to be considered one of the most fun schools in the nation.”

College glow parties are becoming increasingly popular for students. Day Glow, the world’s largest glow in the dark party, began in 2006 and set the bar for all parties in the nation. The Barstool Blackout tour is expected to be very similar to Day Glow. Party goers are encouraged to wear white with bright colored accessories that glow in the dark.

If you haven’t purchased your tickets already it is advised to do so soon. They are selling out quickly and you don’t want to miss your chance at what could be this spring’s biggest party.

Out of every $10 spent buying things, $1 (10%) goes for packaging that is thrown away. Pack­aging represents about 65% of household trash
Waste, newprint, cardboard, glass and metal from your home can reduce carbon dioxi­de emissions by 830 lbs. a year if recycled

CONT. FROM PG. 1

preparing fish and vitamins.
This is not her first time working hands-on with animals, though. She interned during Summer of 2011 along Dolphin Tours out of Marathon, FL. She also did photo identifications of the dolphins while working there.
Not only does Hughes intern full time, but she also holds two on-campus jobs. She is a supervi­sor for CCU Campus Recreation and a Chemistry Workshop leader. With a very busy school and work schedule, it's hard to imagine she would have time for anything else.
"I played club volleyball for three years," said Hughes. "I had to quit once I got the internship at Pirates so I had more time in my schedule for the sea lions."
Hughes has learned a lot from this internship, but the one thing she has learned the most is pa­tience. She said working with training animals can be frustrating. The biggest obstacle she has overcome was getting the sea lions to do what she wanted them to do.
"These animals wouldn't listen in the wild be­cause everyone treated them like they were wild," said Hughes. "In the wild, most sea lions don't live past 20 years old, but at Pirates Voyage we have a female sea lion that is now 36."
Hughes has applied for an internship in British Columbia, Canada as well as other internships all over the country. She says she's dying to see what else is out there.
For this Marine Science student, nothing is more exciting than applying what she learns in the classroom to real life.
(do)
SHANE NORRIS
As the Editor-in-Chief of The Chanticleer, I like to keep my ears open when I'm around fellow students, always listening for ideas both­ering folks. One thing that comes up almost all the time is anger directed at the construction projects for one reason or another. Whether it is that they're taking away parking, or blocking students' shortcuts and forcing detours to class, or complaints that projects are overdue, almost everyone has some gripe with the multiple con­struction projects going on around campus.

Here's the deal.
First off, you should be happy to see our little school putting such an effort into growing. It may not seem like it at times, but it's all being done to enhance the STUDENTS, that's you, experience at Coastal.

To this one might say, “Hey Shane, I'll be gone long before half these things are done anymore. To which I answer... me too, but you've got to think about the long run. What makes a degree from one school seem better than the other? The school's experience at Coastal.

CHAD YATES
So there is something I have noticed over the course of my time working on The Chanticleer. Every single Monday, we check out a golf cart and stack it full of papers to hand out around campus. We hit most of the buildings around campus with a few stacks and make sure certain professors get their copies, then head out to Prine Lawn to give away papers to students walking to and from their classes.

We always try to make it there while classes are switching and the main campus is packed with fellow students, always listening for issues both­ering the campus. Even if you're gone with a degree from CCU long before half these projects are done, it's going to do nothing but make your degree more valuable when, in 10 or 15 years, CCU is on par with Clemson or USC.

Secondly, you can't blame the school for delays. It may not seem like it at times, but it's all being done to enhance the Coastal community if you don't know what's going on around you?

Lastly, as far as the whole parking or shortcuts things go... get over it! I don't know how many of you have visited other major universities, but we're blessed at Coastal to have parking as close as the front dorms.

YATES
The bigger the school, the less parking, or the farther parking pay around double or triple the price for parking permits than CCU! At College of Charleston, it's $400-600 per semester. Clemson is $75 per year. At Coastal, it's $105-360 per semester. But at Coastal, we're blessed with a $75 a year.

So, all things considered, the construction is good even if it may not seem so. Just think of it in the long run.

KNOWLEDGE IS POWER
Chad Yates
There is something I have noticed over the course of my time working on The Chanticleer. Every single Monday, we check out a golf cart and stack it full of papers to hand out around campus. We hit most of the buildings around campus with a few stacks and make sure certain professors get their copies, then head out to Prine Lawn to give away papers to students walking to and from their classes.

We always try to make it there while classes are switching and the main campus is packed with students. With Shane, myself and the occasional Chanticleer staff member, there's pretty much no one else there. With Shane, myself and the occasional Chanticleer staff member, there's pretty much no one else there.

Yet, trying to get someone to take our publication is sometimes like asking some students to hand to her their wallets. I've gotten downright mean looks sometimes. It's not like we're just randomly offering you to spot us a 20. We're trying to give you something for free. But that's not even the point of this editorial.

I guess what I just flat out don't get is why you wouldn't want a NEWspaper. When I get those dirty looks or concer­ted responses, I like to reply with a “knowledge is power.” Yes, it may sound cheesy, but it's true. How can you expect to be a productive member of the Coastal community if you don't know what's going on around you?

Now, I don't mean to make it sound like this is the case with all students. A lot of times, students are thrilled to get offered a copy of the paper instead of having to dig around campus in every little nook and cranny to find one.

And I know that we're not the only way students can get their news on what's happening on campus. Still though, a little more information (or perhaps a different perspective) can't hurt.

It's just something to think about. Knowledge is power.

**TRIVIA**

1. Ralph Craig ran the 100-meter dash for the US in 1912. When did he next compete in the Olympics? 
2. What were the UK's Queen Elizabeth and Prince Philip given as a present for baby Prince Andrew while on a visit to the Gambia? 
3. What did George Bernard Shaw describe as "a perpendicular expression of a horizontal desire?" 
4. Sculptor Frederic Auguste Bartholdi based the face of the Statue of Liberty on whom? 
5. Who did John McEnroe beat in his first match on the way to winning his first Wimbledon?

**QUOTE**

"As the poet said, "Only God can make a tree," probably because it's so hard to figure out how to get the bark off." -Holly Allen

"Beauty is a manifestation of secret natural laws, which otherwise would have been hidden from us forever." -Johann Wolfgang von Goethe

"A friend should be one in whose understanding and virtue we can equally confide, and whose opinion we can value at once for its justness and its sincerity." -Robert Hall

"Approach the game with no preset agendas and you'll probably come away surprised at your overall efforts." -Phil Jackson

**CRIME LOG**

1/27/12
 Noise complaint - underage possession of alcohol, breach of the peace
 OCCU DPS officers responded to Eaglin Hall in reference to a subject making a lot of noise in the residence hall. The subject was located and interviewed. The subject was determined to be in possession of alcohol and underage. The subject was arrested and transported to the Horry County Detention Center. This incident is also being referred to the Student Conduct Process for the University.

1/28/12
 Attempted Burglary
 A CCU DPS officer responded to Erdine Drive in reference to a complaint of an attempted burglary. The officer interviewed the victim and observed the evidence at the scene. The incident is under investigation.

1/28/12
 Possession of paraphernalia
 OCCU DPS officers responded to University Place in reference to a complaint of possible drug use. The officers met with University housing staff at the scene and made contact with the subjects. The subjects were interviewed. One subject was found to be in possession of paraphernalia, bongs, a cotton and released. Alcohol was found in the apartment. The alcohol was destroyed and the incident will be referred into the Student Conduct Process for the University.

1/29/12
 Intimidation- Unlawful use of electronic communication
 The victim came to the OCCU DPS office to report that the subject was threatening the victim by electronic means. The victim was interviewed and explained the circumstances of the incident for the officer. The subject was contacted and requested to stop all communication with the victim. This incident is administratively closed.

WHAT’S THE WORD?

COURTNEY MOSER

Each week the Chanticleer asks our readers a random question.

We asked CCU students...

Do you think Valentine’s Day is overrated or a real holiday?

“I think it is over commercialized but not necessarily overrated.”

Eric Fineman, Senior

“I overrated because it’s a Hallmark holiday and it overlooks my sisters birthday.”

Emily Barrows, Sophomore

“I think it’s a real holiday because it has the same historical roots as the rest of our holidays do except it’s been commercialized.”

Meredith Grate, Senior

Musical Theater

PROFESSOR PROFILE

SHANE NORKIS

Alayna Defalco

“Teaching Associate
Health, Kinesiology & Sport Studies

Favorites:

Book - I’m not one to read novels or leisure reading; however, I will read and update my knowledge with exercise research articles. I also enjoy reading daily devotions or passages from the Bible.

Band - Bruce Springsteen & The E-Street Band

Food - Anything homemade Italian

Quote - “All of the animals except for man know that the principle business of life is to enjoy it.” - Samuel Butler

When are you not teaching what are you doing?

I enjoy spending time with my husband and son in the outdoors: walking our three dogs, spending time at the lake, bike ride or stroll on the beach collecting shells. My favorite hobby is to go to the animal shelter with my son to free the animals of their cages for a while and walk or play with them.

What is your greatest accomplishment?

My greatest accomplishment and continuing challenge is to be a great mother and role model to my son. To show him and teach him that he can aspire to be anything in life if he works towards his goals and can conquer the bumps along the road. Also, I’m extremely proud of my husband for achieving his ultimate goal of opening his own physical therapy office in Myrtle Beach called “Professional Rehab Services”, and hope my son will see that hard work does and will pay off.

Who is your Hero and why?

God is and always will be mine.

Words of wisdom for students:

Never be afraid to meet new people and new situations. Always be open to what others have to say, as you never know when and how you can use that information. Even if you think that your newly learned knowledge doesn’t pertain to you now, it may be useful in the future.

WE WANT YOU!

We are currently seeking as many contributing writers as possible. We encourage any prospective writers to attend our weekly meetings on Monday at 6:00 p.m. in the Lila Jackson Center room 206. The Chanticleer is a great way for prospective writers to acquire published material and gain valuable experience for possible internships and job opportunities.

Story ideas can be submitted to The Chanticleer via email at chanticleernews@gmail.com. You can follow us on Twitter (@ChanticleerNews) and look for us on Facebook at The Chanticleer. We look forward to receiving your articles and welcoming you to our staff.

CHAuncey’s CINEMA

The editors weigh in on upcoming movies

Star Wars: Episode 1 (in 3D) (Feb. 10)

The classic George Lucas masterpiece is in theaters once again, but this time in 3D as if the original wasn’t already hard-ass enough. For any Star Wars fan, this is a 10 star movie you see right. I have not seen a movie before and was blown away by the effects. The classic George Lucas masterpiece is in theaters once again, but this time in 3D as if the original wasn’t already hardcore enough. For any Star Wars fan, this is a 10 star movie you see right. I have not seen a movie before and was blown away by the effects.

All Things Fall Apart (Feb. 14)

Curtis “50 Cent” Jackson is back on the big screen again. Jackson plays Deon, an explosive college running back on the fast track to stardom. As he prepares for life in the NFL, his life takes an unexpected turn and he must put his life back together all over again. According to rottenpotatoes.com, this is a “touching story about a man who loses everything, but gains the world.”

Death of Auto-Tone

Jay-Z

“Lyrical mastery without a pen.”

Jenna

Hell on Heels

Fiona Apple

“Don’t mess with chicks. We’re better at revenge!”
The freshman recently received her third Big South honor of the season. Cole is the team’s leading scorer this season, averaging 11.8 points per game.

**SHATIA COLE**

**Women’s Basketball Guard**

The freshman recently received her third Big South Freshman of the Week honor of the season. Cole is the first to receive multiple honors in one season since Syndra Moss did so in the ’07-’08 season. Cole is the team’s leading scorer this season, averaging 11.8 points per game.

**MOGLIA INTRODUCES 2012 SIGNING CLASS**

**Kim Sherayko**

CCU Head Football Coach Joe Moglia concluded a busy first month at Coastal with the arrival of National Signing Day on Wednesday, Feb. 1. Dalton Demos, a dual threat QB from Christian Brothers College High School (CBC) in St. Louis, headlines Moglia’s first recruiting class. Demos, a two-year varsity starter, led CBC to the 2011 Missouri Class 6 State Championship game and two consecutive Metro Catholic Conference championships.

During his senior season at CBC, Demos completed 33.1 percent of his passes, while throwing for 35 touchdows and 15 interceptions. Demos is also a running threat who rushed for four touchdowns.

Scout.com gave Demos two out of five stars.

Other notable recruits to sign their Letter of Intent with Coastal include: defensive lineman Marcus Crowder and Roderick Holder; defensive back Kamron Benjamin; offensive lineman Dominic DiGalbo and Vogher Larrieux; wide receiver Bruce Mapp; running backs Andre Johnson and Lorenzo Taliaferro; linemen Clark Krimmer; and Richie Sampson signed for his athleticism with no noted position.

**TJ’S TAKE**

The Pro Bowl needs fixing

**TJ Sundberg**

Anyone watch the Pro Bowl this year and think it was entertaining? Did anyone even watch the Pro Bowl?

The NFL’s all-star game has become a mockery of the league. Half of the players voted in don’t even go anymore. And there’s no flash to it. At least the other big sports have cool things about their all-star festivities. The MLB has the Home Run Derby, the NBA has a celebrity game and a dunk contest and the NHL has two captains that get to pick their own team and a skills competition. What does the Pro Bowl have? Nothing.

Wow. It’s not like everyone who gets voted to the game can’t go to Hawaii six times a year if they want to and still have enough money left over to live fitter than about 90 percent of America.

Why doesn’t the NFL take notes from their “competitors” all-star festivities? I think more people paid attention to game 51 of the regular season in the MLB than watched the Super Bowl. It’s an all-star game; let it come after the Super Bowl so the actual all-stars voted in can play. Who won anyway? Anyway, that’s my take on the whole game. Who won anyway?
CCU CHEERLEADERS KICK OFF A BUSY WEEK WITH YOUTH CLINIC

KIM SHERAYKO

From Feb. 3 to Feb. 5, Coastal Carolina Cheerleaders hosted a youth cheerleading clinic, where participants between the ages of five and 18 become a Chant cheerleader for the day.

On Feb. 3, Coastal cheerleaders hosted the instructional part of the clinic.

"By providing this youth clinic, we are reaching out to the community," said junior cheerleader Caitlin Carroll. "The girls get to look into what it takes to be a CCU cheerleader." Participants also cheered with the Coastal Cheerleaders during the women's basketball game on Feb. 4 versus Gardner-Webb.

"The best part about teaching young cheerleaders is being able to give them someone to look up to," Carroll said. "There is no better feeling than being able to be a positive role model and give the girls an opportunity to cheer at a college game."

The cheerleaders' first week of February concluded Saturday, Feb. 4 when Coastal hosted its first STUNT competition. CCU Cheerleaders will face-off against in-state rival University of South Carolina in a two-meet competition.

"STUNT is a new competitive team sport that has derived from traditional cheerleading," said Carroll. "It removes the crowd-leading and focuses on the technical and athletic components of cheerleading."
