THE VOTES ARE IN: WALLACE WINS

Secretary of Finance Nicholas Baldino as vice president. Other winners include senior Scott Rose as elected vice president of public relations and junior Brandon Retty as elected vice president of finance. Derived to their loss, the candidates gathered in the Wall building boardroom and animously awaited the results. After

Listening to a few words from Executive Vice President and Chief Operating Officer Eddie Drett, the winners of next year's senate and executive board stood up and received notices and their voting pins.

The room filled with applause and congratulations for the newly elected president, who dedicated the last few weeks to a hard fought campaign against opponent Alex Rutherford. After plastering his name on a banner over President Lazen, the former SGA Chief of Staff spent his time speaking to campus clubs and organizations to build a strong constituency.

"It's truly a humbling experience and I am honored that the students chose me," said Wallace.

The newly elected president has already started planning for some big changes next year.

"I want to improve the lines of communication between the school's administration and the students," said Wallace.

"Once we improve that, we will be able to accomplish so much more."

Even the new Vice President Nicholas Baldino has been making plans to create new and informative student programs, as well as improve some existing ones.

"I'm working on a project called "Take Five." I'll be posting long, online videos that teach students how things work around campus," said Baldino.

"I also want to improve the Student Radio here on campus. Maybe try and make it more accessible and see if someone off campus would be willing to help out too."

With a combined 15 years of SGA experience under their belts, the new cabinet members are confident and ready to take on the new school year head-on.

MYRTLE BEACH SPORTS RADIO CHANGES DIAL

QJ SUNDBERG

February 28th's afternoon press conference was more than 가져bo Abello's baristas and an excuse to go to class later than in fact, a lot more was announced.

First things first, 93.9 "The Team" (home of the Chanticleer Sports Network, "The Drive" with Aaron Marks, and other ESPN radio broadcasts) is moving to 100.3 on the dial. The more doubles the reach of the station in Brunswick and Georgetown counties.

In addition to 93.9's move to 100.3, FOX Sports 1050 was introduced as well. The addition of FOX Sports Radio to the area allows the Dan Patrick Show to air live and, 2010 will be the home of every Myrtle Beach Pelicans game each season.

For Coastal Carolina athletics, these changes mean a lot to the athletic program. Football, basketball and baseball will continue to air on 100.3, but the addition of 1050 will allow for expanded programming.

"We're expanding our brand," said voice of Chanticleer athletics Matt Hauge.

"Great things are in line for the future."

Since 1995 frees up space on 100.3, the "Scott Van Pelt Show" will also be heard live from 1 p.m. to 4 p.m. Mon, Thurs and Fri, and Jim Rome will move from 12 p.m. - 3 p.m. on 1050. South Carolina Gamecocks baseball play-by-play can be heard on 100.3 as well.

"We're excited to grow," Marks said in his closing statement. "Stay tuned."

World-Costa passengers endure tropical climates without power

Passengers endured a third day without power and hot food on a stricken Costa cruise ship in the southwestern Indian Ocean on Wednesday, as helicopters airlifted fresh bread to the liner under tow.

The Costa Allegra suffered an engine-room fire which knocked out the ship's main power supply, disabling the engines in waters powered by paraffin.

The company said some of the passengers asked to be flown home, while a larger number said they planned to continue their vacation on the island.

Seychelles officials said the passengers would be attended to by a team of doctors and offered their first hot meal in days. Those who wanted to leave would be flown home.

"We have a team of doctors, nurses and paramedics who will meet and attend to the passengers' possible medical needs," said Kenneth Henriette, the island's chief medical officer.

A French deep sea tug is pulling the Costa Allegra along at a speed of six knots.

"Efforts were made to add a tug to help tow but it didn't work," General Manager of the Seychelles' coastguard, told Reuters. A military aircraft is also flying in support of the operation.

The cruise line said it would try to charter flights to passengers' home countries, but the plans were not finalized.

National-At least 11 killed as tornadoes strike U.S. Midwest

Powerful storms that spawned tornadoes ripped through the U.S. Midwest last week, killing at least 11 people, including six in Illinois who were crushed when a house was lifted up and fell on them, authorities said.

Three people in Missouri were also killed by a storm that struck during the night. A tornado temporarily closed the famous entertainment strip in Branson, Missouri, where country music shows and other performers draw thousands of people a day.

Two men and four women died when a pre-dawn tornado struck Harrisburg, Illinois, a town of nearly 10,000 people, Mayors Eric Gregg said, describing the storm damage as "horrible."

Two people also died in Tennessee as the rash of storms moved across a wide area.

In Harrodsburg, the six people were killed when powerful winds lifted a house up and dropped it on top of other homes in a housing subdivision adjacent to a wrecked shopping strip.

"There are hundreds of homes damaged, millions of dollars in damage. The hospital is severely damaged. There's about 10 homes that was destroyed," Gregg said.

Mike Hancock, an employee of the U.S. Forest Service, said services were armed with tools and had to re-assign a rescue where the six people died.

There were also tornado watches issued for parts of Missouri, Alabama, Tennessee, Kentucky, Virginia, West Virginia and Ohio.

OUT OF STATE TUITION FINALIZED FOR 2012-2013

Coastal Carolina University recently announced that out-of-state tuition will increase for undergraduate students by 2.3 percent for the 2012-2013 academic year. Currently, out-of-state tuition sits at $10,780. This increase will boost that price up to $11,025 per semester.

This announcement comes at a time when the board reconvened the decision to choose to further review the matter.

According to President DeCenzo, Board Chairman Vincent Henderson called to review the rates after considering current tuition rates and the economic situation of many out-of-state students. We did not increase student funded operating revenue. The president acknowledged staying competitive in the educational marketplace is important, the university claims the students are the main reason for restructuring the rate.

In other news, it was announced that out-of-state graduate students will experience the initial raise in tuition price of 3.75 percent. This percentage of change will increase tuition from its current rate of $690 to $730 per credit hour for non-business graduate students. For business graduate students, tuition increased from $870 to $900 per credit hour.

According to Bowis, the graduate rate was increased to cover the costs associated with delivering graduate level education.
MEET THE GREEK

CARI NOGAS

Mike Abbott
Senior
Accounting Major
Kappa Sigma

Where are you from?
Madison, Connecticut

What are your commitments outside of your fraternity?
I am in the PGA program, but most of my commitments are through Kappa Sigma.

Have you held any positions within Kappa Sigma?
Community service chairman and treasurer of our exec.

Have you learned anything about leadership?
Experience is the best way to learn. You can be taught everything you should know, but working your way into a position will be your biggest help in the long run.

What is your favorite part about Greek Life?
My favorite part of Greek Life would have to be the on-campus involvement with the school as well as the interaction with all the other organizations to improve ourselves and each other.

KRISTA GIERLACH

Coastal Carolina's sixth production for the 2011-2012 season, "Lost in Yonkers," directed by Thomas Marini, opened on Feb. 7 and runs through Mar. 11.

This is the third and final production Coastal Theatre Department did at the theatre this year. "Lost in Yonkers" by Neil Simon takes place in 1947 in N.Y. It is a story about a dysfunctional family run by Grandma Kurnitz, performed by Sandy Schackelford, Atlantic Stage member. Her son, Eddie Kurnitz, played by senior BFA Acting major Jonathan Nasterstadt has recently found himself in immense debt due to his wife's illness and death. His two sons, Jay, played by junior BFA Musical Theatre major Drew Taylor and Art, played by freshman BFA Musical Theatre major Conor Devoe, are forced to live with their bitter grandmother while he works to make money out of town. This is terrifying for the two boys, as their grandmother is responsible for all three of her children's issues.

Bella, played by BFA Musical Theatre major Shana Meyerand, is grandma's overreacted daughter who is mentally slow. Grandma treats her like a child, as she has play progressed, the audience realizes all she wants to be married and start a family of her own. Grandma's other daughter Gert, played by junior BA Dramatic Arts major Elise Brown, is left with a breathing problem that humorously affects the way she speaks. Due to the terror Grandma instilled in her, Gert would sleep with her head in her pillow at night, and ultimately caused her to have a heart attack. This catastrophe causes the family to split up for a while, but conclusively results in Grandma softening a bit and Bella moving back in, hoping that one day she'll find the right man for her. Eddie comes back and takes his boys home, promising that they will vary from the past.

On opening night, the room was almost filled, and that continued for the rest of the first two weekends. Freshman BA Dramatic Arts major Madison Beane enjoyed the show and commented, "The accents were very consistent, and the set was well detailed. They did a good job of stretching the time period."

The rest of the audience clearly agreed, as they left the theatre chatting about the wonderful performance and gave the actors a well-deserved standing ovation.

The Coastall Carolina men's lacrosse team has created a name for itself on campus, and looks to excel into something bigger for the future. So far this season, the teams sits at 4-1, and they consider themselves as competition to other schools, but there are still some teams in their league that they are going to have to look out for.

"Our competition that remains are Elon and Florida Gulf Coast," said Drew Longlot, a senior Health Promotion major. "Elon is ranked one of the top teams in the nation and they always bring the heat."

Longlot has played lacrosse for four years, and this season he is once again playing for the team. He plans to continue playing next year as well before he graduates in Spring 2013.

"Next year, I want to continue to help the team grow," said Longlot. "We hope someday it will become a division one sport here."

The team has grown a considerable amount this year, expanding by about 30 new players. The girls lacrosse team has gotten their chance to be considered a Coastal sport, so the boys hope this is the year they prove they have what it takes as well with the help of their President/Captain Ian Christie and Co-Captains Ryan Wilk and Pat Chairs.

"The hardest obstacle we have faced this year was probably getting together as a team before the season started," said Kevin McCool, a senior Biology major. "I've been on the team for three years and this is the most new players we have ever had.

McCool has played lacrosse since the eighth grade, and is sad to graduate and leave it all behind him after this year. "I would love to continue playing after I leave Coastal," said McCool. "But I plan on going to graduate school for physical therapy, so I don't think I'll have time to play for a graduate." The boys' goal for this season is to win their division and be the top seed in the playoffs. They would love to win the SLEC (Southeastern Lacrosse Conference) and move on to the National Championship Tournament in May.
SPRING BREAK 101

LEAH BARCELONIA

Gulf Coast counties may be located a mere nine miles from waterfront resorts, but for this spring break, students have bigger plans in mind than spending their days on the shores of Navarre Beach.

When you hear the words "spring break," many things come to mind. Some choose to flock further south to warmer weather and scenic beaches, while others choose to utilize the area they are already in. Some spring break hot spots for this year include Miami, Fla. and Savannah, Ga. Another popular option is spending a couple days aboard a cruise ship visiting breathtaking locations.

"The cruise I'm taking is seven days, six nights," said Ron Hunt. "We are going to Key West, the Cayman Islands and Jamaica."

Since the cruise is all-inclusive, Hunt plans on spending a lot of time eating as well as sunbathing. He hopes to spend his days off the ship sightseeing around the islands, laying on the beach and hopefully swimming with dolphins. Although, with all that fun, he won't be letting his friends take a back seat.

"There is a 24-hour gym on the cruise, so I will definitely be keeping up with my workout schedule," said Hunt. "There are going to be a lot of college students on the ship so I have to keep up with my body."

While some students plan on spending their days at sea, others decided to stay a little closer to home. "This is my second year going to Savannah for St. Patrick's Day," said Brad Davis, a junior PGM major. "Like the city in general, but for St. Patrick's Day, it is a totally different experience."

Savannah is known for hosting the second largest parade in the country on St. Patrick's Day. People from all over come to visit and spend St. Patrick's Day.

"The highlight is definitely the parade, it takes place right after the St. Patrick's Day parade," said Davis. "There are so many things to do during the day and great places to eat as well."

Hunt is proud of the friendship from Gonzales, so even if you want to take a day trip, it is well worth it for the holiday experience.

If the weather isn't bright enough for those who enjoy the beach, good music, great food and high end night life, then Miami may be the place to be for spring break.

"I turn 22 in Miami over spring break, so I'm spending it in one of the top night clubs in the country," saidSE. "It's called Loca, a senior Health Promotion major. "I also plan on going to a couple 19 shows and pool parties."

SE is dazzled to find something to do in a city with such an amazing reputation as a party spot.

"The city has it's own culture and diversity," said Lengfeld. "It's unlike any city in the U.S., and that's why I love it there so much."

Lights, Camera, Cure

ALEXX ALTMAN

On March 23, 2012 at 7 p.m., the celebration and remembrance of loved ones who have battled cancer will take place once again at Coastal Carolina University.

This event, known as Relay For Life, occurs every year across the globe to celebrate the lives of those with cancer as well as fight back against the disease. Teams of people camp out at local high school tracks and parks and take turns walking around a track or path. Relay last up to 24 hours, because cancer never sleeps. "The goal is to raise money and awareness to help save lives from cancer." In 2007, Coastal Carolina University began hosting its own Relay For Life for students to take part in. This opportunity allows students, as well as the local community, to take part in this special event.

As senior Communication major Carissa Del Bene lost her father to cancer six years ago, it means a lot to her to celebrate Relay For Life. "Relay for life hits home for me," said Del Bene. "Relay for life connects people who have been through similar situations. It is refreshing to know that I am helping other families to save a loved one, especially going through what their fathers Relay For Life truly changes lives."

Jennifer Hoffman, Relay For Life's event coordinator, said activities that will occur in this year's event include Zumba, energy drink pong, a Ms. Celebrity Relay Pageant and a performance by band 3 Weeks Notice. The theme incorporates movies and is called Lights, Camera, Curb. "Relay For Life will take place at the track on Coastal Carolina's campus. Coastal hopes to raise $130,000 and surpass last year's total of $125,502."

A Season of Dreams

AUSTIN LANZ

Listen up theatre junkie, it's that wonderful time of year when Coastal's Theatre Department announces next year's line up of shows. As this year comes to a close, many of the shows have been very successful. Next year is looking just a promising with a line up of familiar shows, focusing on enticing themes.

In 2007, Coastal Carolina University began hosting its own Relay For Life for students to take part in. This opportunity allows students, as well as the local community, to take part in this special event.

As senior Communication major Carissa Del Bene lost her father to cancer six years ago, it means a lot to her to celebrate Relay For Life. "Relay for life hits home for me," said Del Bene. The Weekly Green

ZACH DERITIS

Chick-fil-A has received the Leadership in Energy and Environmental Design (LEED) certification for being one of the greenest businesses in the country. After doing a complete, green overhaul on their Fort Worth, Texas location, Chick-fil-A has turned the restaurant into an energy-saving machine.

The building has been fitted with a swimming pool-sized cistern, which collects rain water for lawn and plant irrigation, low-flow plumbing fixtures and will serve as the experimental store for Chick-fil-A's reconstruction of all of their restaurants nationwide. The chain even plans to use energy-efficient products and as many recycled materials as possible during the reconstruction of its more than 1,600 locations around the country. With all of the new water fixtures in the Fort Worth store, Chick-fil-A is stringing 40 percent of the water a normal store uses and saves 14 percent in electricity costs. Although the chain still faces scrutiny from environmental activist groups for "intensive poultry farming," you have to give them some credit. Chick-fil-A is the second largest fast food chain in the U.S. and the only one doing as much as it is to move towards a healthier environmental future.

Glass can be recycled virtually forever. It never wears out.

Recycling one ton of paper saves 4,100 kilowatts of energy (enough power for the average home for six months).

Over 2.4 billion pounds of plastic bottles were recycled in 2008.

We create about 4.7 pounds of waste every single day per person in America.

WCCU Radio Update

The shows are back! All of last semester's on-air shows are on the air again! Make sure to tune in and listen to your favorite shows. WCCU Radio is excited to announce the new shows premiering on-air this week! The new shows are advice, music, and comedy. Look out for new station posters with the dates and times for all of our on-air shows!

As a new school year approaches, all of the management staff is looking for those who have an interest in becoming the new managers of WCCU Radio. If you have a passion for radio and would like to take part in an amazing opportunity, contact the station's advisors, Ms. Patricia O'Connor at pconnow@coastal.edu to set up an interview.

WCCU Radio will host another benefit concert sometime in the spring! Express your interest now in what local artists you would like to see on our Facebook page. Like us at WCCU Radio! If you are having trouble listening to the station online, it is available on iTunes Radio, then College Radio, search "Coastal Carolina." There is also an app available on Android and iPhone, "Tune In" and search "Coastal Carolina."

Listen live every hour of everyday to WCCU Radio!

Correction from the Last Issue

In last week's paper, Volume 50, Issue 18, there was an errant line running down the front page through the story "Chaucery Says: Be Well." The section was not as designed in the design process and The Chanticleer apologizers for any confusion caused by this. Additionally, in the story "The QEP: Q&A SACK is defined as Southern Association of Schools and Colleges when it should have been Southern Association of Colleges and Schools."
LIVING TOGETHER

SHANE NORRIS

As the great Jimmy Buffett said, "Relationships. We all got'em. We all want'em. What do we do with'em?"

And that is one of the great questions of life and, especially college. In a time when many folks are living somewhere different than their hometown for the first time and entering a whole new world of independence, relationships are going to be a totally different beast. For the first time, you are living without adult supervision or anyone to say anything if you were to come in at 2 a.m. or bring a guy or girl home from a night out. For many, this is a liberating experience and a chance to live and learn. And that's the essence of college.

However, another thing that this freedom allows is for one to decide who they live with. More specifically, it allows one to have a live-together relationship. Some people may find this a ridiculous and dangerous in college, especially when you consider most living situations in college involve a 12-month lease. I disagree.

For almost two years now, I have lived with my girlfriend and I've caught slack from peers, parents and faculty alike. It began with me living with two friends and a random roommate last year. Over the first semester, some chemistry started to develop between my roommate and myself and, by February, we were officially dating. The first question I got from a lot of people was... "wait don't you two live together?" To which I would reply yes and then explain my theory on why this was a good idea.

That theory is as such: by college you should be old enough to decide who you live with. More specifically, it allows one to have a live-together relationship. Some people may find this a ridiculous and dangerous in college, especially when you consider most living situations in college involve a 12-month lease. I disagree.

The driver was then transported to the Horry County Detention Center. The vehicle was towed.

2/25/12 Parking violation. While on patrol, a CCU DPS officer was contacted by a resident of Juniper Drive in reference to a vehicle parked in the street. Officers attempted to locate the driver without success. The vehicle was towed.

"How we think shows through to a complaint of an assault and battery, to a vehicle parked in the street. Officers attempted to locate the driver without success. The vehicle was towed.

2/25/12 Possession of paraphernalia. CCU DPS officers responded to Ingle Hall in reference to possible drug use. The officers located the subject apartment and contacted the occupant. No marijuana was found in the apartment but paraphernalia was. This subject admitted possession of the paraphernalia. The subject was issued a citation and the incident will be referred into the Student Conduct process for the University.

2/2/12 DUI. While on patrol a CCU DPS officer observed a vehicle being driven in an unsafe manner and stopped the vehicle. The driver was given the opportunity to attempt SFSTs. The driver was not able to complete the SFSTs successfully. The driver was transported to a breath testing facility. The driver did not submit a breath sample. The driver was then transported to the Horry County Detention Center. The vehicle was towed.

WHAT'S THE WORD?

CHAID YATES

Each week the Chanticleer asks our readers a random question.

We asked CCHU students....

What is your St. Patrick's Day tradition?

“My St. Patrick’s Day destination is out of my mind and away from school.”

Joshua Bradberry, Junior
Communication Major

“I plan to be hanging out on the beach.”

Justin Hejek, Freshman ECO

“I’ll be at my apartment in my room watching Netflix day after day and I will enjoy myself.”

Maggie Delaney, Sophomore Med/Land Education

CHAUNCEY’S CINEMA

The editors weigh in on upcoming movies.

John Carter (Mar. 9)

Former military captain John Carter (Taylor Kitsch) somehow ends up on Mars and gets caught up in a battle between the sexes of the planet. This Disney film follows Carter as he rediscovers himself through the conflict. When the survival of the planet lies solely in Carter’s hands, how will he handle the pressure?

Silent House (Mar. 9)

This psychological thriller follows Sarah (Elizabeth Olsen), her father Adam (Eddie Murphy) and his uncle Eric (Shelley Steen) as they take on the task of cleaning their summer cottage. They soon find, however, that they aren’t alone. This film was shot in a continuous take, meant to make the viewer experience everything firsthand.

A Thousand Words (Mar. 9)

Jack McCall (Eddie Murphy) is a smooth-talking literary agent who knows how to get his way. When he sets his sights on Dr. Nina (Cliff Curtis) for his own selfish reasons, his life begins to come unglued, as Dr. Nina sees his motives. Dr. Nina enforces up a magical tree that a leaf falls from every time he sneaks. However, when the last leaf falls, both McCall and the tree will perish. If he can’t communicate without words, he must find alternative ways to communicate.

The Chanticleer women's team came in second place. Track former Ashly Daniels took second and senior Chris Johnson placed third. The Distance Medley Relay, consisting of Letitia Saayman, Christina Davis, Jen Denison, and Shelby Niconia took third.

In the field, senior Kierra Gabe won both the high jump and triple jump to claim Most Outstanding Field Performer for the second consecutive year.

In the throws, Senior Shantelle Patterson took third. Even with a second place finish, Director of Women's Cross Country and Track & Field Alan Connie is proud of his athletes. “I am very proud of our team, particularly the way they battled back from being 50 points behind Liberty after Day 1 to make it a Champions­hip that came down to the wire,” said Connie. “We came away with the Runner Up Trophy but our ladies are Champions as far as the coaching staff is concerned.”

Sophomore hurdler Ashly Davis took the bronze in the 60 meter hurdles. Senior and defending 400 meter dash champion Santresa Jamison took second place in the 400 meter dash and freshmen Sharmaine Barnes nabbed third.

THREE CHANTS EARN REGULAR SEASON HONORS

KIM SHERAYKO

Redshirt junior Anthony Raffa and redshirt senior Chris Gradnigo were named to the Big South Second-Team All-Conference. Redshirt junior Sam McLaurin also earned his second All-Academic Team honor. Raffa and Gradnigo were CSU’s one-two punch on the court, with both players reliable double-digit scorers throughout the season. Raffa led Coastal in scoring at 16.9 points per game, which landed him the sixth best average in the Big South. Raffa also etched his name into the 1,000 point club.

Gradnigo averaged 15.1 point per game, while grabbing 6.4 rebounds per game. He was a constant threat on both ends of the court by putting up numbers to put him in the Big South’s Top 15 in points scored, rebounds and blocks.

McLaurin earned academic honors, but was a constant threat on the court as well as in the classroom. His 3.86 GPA as a Communication major also earned him a spot on the CoSIDA Academic All-District Team.

McLaurin averaged 9.5 points per game and 7.0 rebounds. He also put his name in Coastal Carolina record books when he broke the career record for blocked shots.

Raffa, Gradnigo and McLaurin led the Chanticleers to the number two seed in the Big South Conference Tournament before the Chants fell to number seven VMI in the quarterfinals.

O’S STANDPOINT, BUT I KNOW THE GAME A GOOD AMOUNT. DO WE EVEN WATCH FILM DURING THE WEEK? EVERYONE IN THE BIG SOUTH KNOWS VMI LIVES AND DIES BY THE THREE, YOU’D THINK WE COULD FIGURE OUT A GAME PLAN TO DEFEND IT. THEY SHOT 50 PERCENT FROM BEHIND THE ARC. KEVIN DURANT COULDN’T EVEN DO THAT IN THE THREE-POINT CONTEST DURING ALL-STAR WEEKEND.

Actually, three pointers didn’t even matter. There was about a six minute stretch in the second half where VMI didn’t hit one three pointer and we couldn’t score a point.

Maybe I’m so jaded because I’ve been spoiled with success the past two basketball seasons, but this season was lousy. Looks like TJ’s got to return my dancing shoes. Maybe we’ll reach the court next March Chanticleer fans, just maybe.

TJ’S TAKE

I caught some of Coastal’s game if you want to call it a game against VMI in the Big South Tournament. I almost threw up.

We lost by 17 points, to a team we’ve beaten the last eight times we played them. From what I saw of the game, it didn’t even look like we wanted to be there. Players were on the bench with their hands behind their heads; players were on the court running around aimlessly. It looked like a crappy intramural game on a Tuesday night in the mall gym.

Basketball isn’t my cup of tea from an X’s and O’s standpoint, but I know the game a good amount. Do we even watch film during the week? Everyone in the Big South knows VMI lives and dies by the three, you’d think we could figure out a game plan to defend it. They shot 50 percent from behind the arc. Kevin Durant couldn’t even do that in the three-point contest during All-Star Weekend.
