A CAUSE WORTH WALKING FOR

CHAD YATES

Pick up a box of Food Lion brand frutti
naccini and a bag of the popular Knorr Prots Sides in one hand. It is hard to li
Combined, those two items come to a
grand total of 20 ounces, not much more
than four feet six inches.

That’s the exact weight of Diana D
er when she was born on June 13, 2003. Diagnosed with Intra-Uterine Growth Retardation, a condition that pre
vents proper growth in the womb, she was born 12 weeks premature and spent her
first 72 days on this Earth in an incubator

hooked up to a feeding tube and breath
ning device. Diana is the half-sister of
Junior Marketing major Christy Damore, who serves as the captain of Track Diana for the March of Dimes Pee Dee Division. March of Dimes is an organization dedi
cated to raising awareness about prematu
re births and supporting healthy babies through research and funding.

Nine years later, Diana is fortunate to be in good health with no long-term
health issues, but will never grow to more

than four feet six inches. However, not all premature babies will experience the
same fortune.

According to MarchofDimes.com, about 23 percent of babies born prema
turally as Diana develop serious last

ling disabilities. Since the early 1980’s, the premature birth rate has increased
by nearly 40 percent and currently sit
at 12.5 percent, approximately 541,000

per year. In South Carolina alone, one in
seven babies are born prematurely, com
pared to last year’s rate of one in six. By
supporting the cause, you can help in the
effort to even further decrease the rate of prematute births.

“It’s incredible that she is where she is
today, but the main reason I’m doing this is for the babies who aren’t where Diana is now,” said Damore.

Each year, Coastal hosts a walk similar to theRelay for Life in support of the cause.
This year’s walk will take place on Sat.
April 28 with registration and awards at
8:30 a.m. and the walk itself at 9 a.m. It
starts at Brooks Stadium and goes around
the main campus for a total of three

miles. Prior to the walk, activities will be available for children and ends with free
food for attendees.

Team Diana hopes to raise $1,300 this
year, every penny of which goes to Team
Diana of the March of Dimes.

“Please, help me help babies and families
around the world. Every donation helps,” said Damore.

Additionally, Team Diana is hosting a Wing Eating Contest Mon., April 16 at Buffalo Wild Wings at Carolina Fors
cet. The contest starts at 6:30 p.m., but
from 5:30 to 6:30, you can donate a percentage of your check for simply
telling your waiter your check goes to
Team Diana.

“I encourage everyone to come out to eat wings and help babies,” said Damore.

To submit a donation to Team Diana, visit http://marchofdimes.org/christ
ydamore and click the “donate now”
button at the top of the page.

50 YEARS OF THE CHANTICLEER

A look back at the journalism
through the years

CHAD YATES & SHANE NORTIS

If you look beneath the page numbers on each page inside The Chanticleer, you
will notice this volume 50 of Coastal’s student-produced newspaper. Combine
with the fact that this is the last issue produced completely with the current
staff, we feel it is necessary to look back
on the last 50 years of journalism here at
Coastal Carolina University.

Over the course of the year, papers
dating all the way back to 1960 surfaced in
a staff member’s office. We have cull
ed these papers and digitized them to
put in this week’s paper for your reading/
viewing pleasure. The articles and photos you will see contain significant events at Coastal in that time frame.

Some of these significant events in
clude the groundbreaking on the dorms, when shown to the right, the as well as
Amber Campbell’s Olympic perfor
performance. President DeCenzo’s statement to
new students shortly after being named
president, plans for an athletic building that eventually fell through, renowned
musicians performances at CUC and a va
diety of mast heads throughout the years.

Over the course of time, the newspa-
per has changed greatly under different
staff, including ours. We hope you have
enjoyed the product we produced for the
past year as we handed the torch to our suc
cessors. We would like to thank you, our
readers, greatly for your dedication this past year.

We would like to formally introduce
next year’s staff as we turn a new leaf.
The Editor-in-Chief position will be
filled by senior Communication major
Josh Finkick, who previously served as
news editor before accepting an intern

ship this semester in Washington, D.C. St
pping in as Asst. Editor is senior
Communication major Leah Barcelon, who key contributed to our print. And rounding off the stipulated positions is
Graphic Design major Derek Edwards as Art Director. We wish you all the best of luck in the future and continue to improve the publication as a whole.

For the full spread of significant
events we have accumulated, please visit page 3 and enjoy.
On April 22, NASCAR Kinetics has given the students to host a viewing party for NASCAR's next big race at Bertie's on 501. The event will consist of games, door prizes, live music and free food. The students hosting the event welcome all CCU students and staff as well as members of the community to come out and enjoy the festivities. The National Sports Science major, Brynn Hoffman was one of the only non-business majors chosen to take part in the program and is probably the most enthused about the event.

"We want to get as many people as we can to come out and support Coastal," she said.

The free NASCAR Kinetics Betting Ambassadors are proud of what they had accomplished this semester and a large crowd of students at their event will only continue to reflect their success.

ZACH DERITIS

"It's going to be awesome. There's going to be stuff going on outside too like the fire pit and corn hole," said Hoffman. "Even the people from Daytona are coming up."

Hoffman and the rest of the Ambassadors have let no expenses stop them from trying to bring as many Coastal students to their event as possible. They organized multiple games, provide doormats of free giveaways as well as inviting the Myrtle Beach Car Club to come down and show off some of their cars.

Hoffman and her team are doing all they can to provide an afternoon of fun, free stuff and Coastal camaraderie among its students.

The free party is not the only incentive the students were given while completing the program. The students would also be rewarded with a signed letter of recommendation to assist them in getting placed with a job in the business world as soon as possible.

The event will take place at Bertie's on 501 on April 22 from noon - 4 p.m. and no RSVP is required.

Despite their success, the students are pleased with their work and hope to accomplish one thing from their Coastal born.

"We just want to have a party," said Hoffman.

Coastal Carolina they receive commission as second lieutenants.

After two years as an elective you can decide not to continue. But for most dedicated students like Gaspich, they will be looking for contracts with ROTC for the third year.

A day in the ROTC is definitely worth doing, you make close friends, get a job, and how important it is to her. After talking to her it made me realize many students here at Coastal are probably the most enthused about the program and it's something other students at the university should think about.

First off, ROTC stands for Reserve Officers' Training Corps. The program is a unique college elective that teaches students the technical skills used in the U.S. Armed Forces including Army, Navy, Marine Corps and Air Force but also provides them with the leadership skills necessary for success. Coastal's ROTC program is an U.S. Army affiliate.

Physical Training (PT) is every Monday, Wednesday and Friday at 5:30 a.m. followed by a class that is offered twice. In life it is sometimes difficult to find something you are passionate about, but when it comes to ROTC, Gaspich doesn't have to think twice.

"It is definitely worth doing, you make close friends, get in shape, make a lot of money when you become an officer, and have a guaranteed job when you graduate," said Gaspich.

He said his favorite part is "everyone's willingness to help and teach each other whether they're in fourth year or first."
MEET THE GREEK

CARLI NOGAS

Jason White
Senior
Physical Education
Kappa Sigma

Where are you from?
Clark Hills, South Carolina.

What are your commitments outside of your Fraternity?
I am an equipment manager for Coastal’s football team for four seasons and I was a mentor for the Dalton and Linda Floyd mentoring program for several semesters.

Have you held any positions within your Fraternity?
I am a founding officer, I was brotherhood chair and scholarship chair.

Have you learned anything about leadership?
There are two types of leaders: there are vocal leaders and ones who lead by example. You have to have a combination of both. The best leaders have both qualities. If you want to be a leader, you have to have certain responsibilities.

What is your favorite part about Greek Life?
The best part is knowing that everyone who is Greek is going to be successful. It’s going to be interesting to see where people in the Greek organizations are going to go in life.

6-8 p.m. “The CCCP” with Kurt Mouzel
8-10 p.m. “McAve” with Kyle Shiner

Saturday
2-5 p.m. “Chant-A-Swag” with Ruby Matto

DIGITAL OVERLOAD

ALEX ALTMAN

Walking around Coastal it is likely to see a student with an Ipad, Iphone, cell phone, laptop, or any other electronic device in their hands. As a generation that grew up with technology, it is hard to imagine not having a cell phone or the internet.

CASUAL MISFITS

ALEX ALTMAN

Mario “Mario Moretti” Jordan is more than an average Coastal Carolina business major. Along with USC student Quan Greene, they both come together to form a new school hip-hop music duo known as the Casual Misfits.

Casual Misfits got its start in 2010 after childhood friends Greene and Jordan reunited through music. “In 2010, I emailed Quan some music I was working on and had an idea for a group,” said Jordan. “We shared thoughts and one day hanging out in our friends’ studio at USC it all just fell into place. Since then we’ve been working hard every day.”

Jordan records with fellow Coastal student Trevin “Tippy” Turner everyday to help keep the hard work pay off.

Influences for the group come from all types of genres including rock, rap and hip-hop.

“It’s very fun and the style and the beat,” said Jordan. “We make music that we feel comfortable with and that people like us can relate to. Our influences vary from Hoote and the Blowfish and Outkast to Kanye West. We are very diverse.”

The band describes their “casual” sound as a mix of alternative sampling and hip-hop along with live instruments.

It does not make it any easier that there is an ever-growing array of digital distractions that surround us.

The New York Times reports that the average computer user checks 46 websites a day and can switch programs 36 times an hour.

Consuming so much information in one day can leave us feeling tired and foggy.

Times technology journalist Matt Ritchel describes how multitasking on computers and digital gadgets affects the way people process information and how quickly they can become distracted.

So is technology really getting out of hand?

Some might agree that it is not necessarily harmful but takes away from the personal side of communication.

“I don’t think it is a distraction but it takes away from one-on-one communication,” said Ree Greene, political science major. “It also allows for instant convenience.”

St. Francis University communication Professor, Clifford Nass says that there are only disadvantages.

Frequent multitaskers of technology are bad at filtering out irrelevant information, struggle to pull information from short or long term memory into working memory, and are perplexed whenever switching from task to task.

The next time you feel a headache coming on try giving yourself a break from technology.

Opt for going outside and taking a walk to get the blood flowing to your brain again.

The unique style of music goes along with the distinctive group name. Jordan said the name is influenced by several things.

“Back in high school we both just kind of stood out, we dressed different, acted different, we were just misfits,” said Jordan. “Casual is just another word for comfortable, I guess we’re comfortable being misfits, the people that get that are our friends.”

Buzz was created when the release of their first mixtape, Last Day Home was released in early 2012.

The band credits their popularity to Last Day Home going number one in the state as well as hard work and not giving up.

Casual Misfits plan on releasing new music and videos every Friday until their new mixtape, Good As Summer, comes out in May. The band calls themselves Casual Fridays.

A tour along the east coast will be put together to help the release of the new mixtape. Casual Misfits are also planning a concert with Ship the Riper in Charleston next month as well as a show in Columbus on April 30 at the library.

Check out the group’s new mixtape, Last Day Home, on their website, www.casualmisfits.com.

Jordan says the future plans for the band have no limits.

“Reaching the top, making music, designing clothes, documentaries, staying humble and having fun,” said Jordan.

HANSON COMES TO CCU!
GOODBYE COASTAL
CHAD YATES
It's crazy that it was around this time last year Shane set off the fire alarm in the student center while setting up our newspaper boxes around campus. At that point, we had recently been hired into our positions and were preparing to put out our very first issue as editors of The Chanticleer.

Honestly, it seems like just yesterday that I started working for the newspaper. Time is flying by, and that has an awful lot to do with the company I have worked with during my time on staff.

We had a few humps in the road early on, one in which led to a change in director of position, but even with that I can't say enough how fortunate I have been to have dealt the cards I was given.

To everyone who has stuck with us throughout the year, you were fantastic to work with and I encourage all of you who will still be around to continue your hard work and the best of luck in the future.

To you, Shane, I'm happy as hell that I have I have this past year. All of it.

To anyone that has committed the paper has been to both of us, I can honestly say I've really enjoyed it. We made it fun, and I'm really proud of what we have accomplished.

This year has taught you that you have not been able to not only put up with me all year, but embrace it at the same time. I'm going to miss the wacky shenanigans, professional potential Tourrette's and countless others.

And finally, although you are in near the end of first semester, it feels like you have been with us since day one. When you came into the picture, we didn't even know a beat. You are honestly such a pleasure to be around. What's even better than how great you are as an art director is how you understand and appreciate the bizarre environment we create in the office. As much fun as Shane and I had and the star, you have made it even more fun for all of us.

Shane, not just the paper this has been a huge leap and I have wanted a break more than anything in the world to get really grounded and figure out just not the paper I'm going to miss. It's this whole time in my life. As a graduating senior, I know that I will still never get this time in my life back.

It's not all sad, though. It's bittersweet in the sense that while I am sad it's over, I'm ready for the next step in my life. This has been great, but it's time to move on and grow through another life experience.

As I sit here typing this, I have butterflies in my stomach thinking about an interview I have for a PR firm in New York. I'm nervous for my next step, but extremely excited and confident things will work out how they are supposed to.

SHORT BUT FUN
JENNA KAZMIERCZAK
It has been an honor to be a part of the staff here has been such a great experience. I taught me how to work well on a deadline, along with working with pepters which is a good thing to learn as a graphic design major.

Having been thrown into the position, I didn't really know much about newspapers, but did my best to put out something that was presentable. I learned so many things along the way, and am still learning new things and tricks I know will help me in the future. The past year for me has definitely taken me almost forty hours to complete. I was thinking, "Oh my god, it has had to take me this long every time, or I might pull all of my hair out by the time this is over." And, thank god, it didn't. Each week, it took me about thirty to forty hours to finish, which I was incredibly thankful for.

What really made it all go so smooth is what Shane and Chad did. They had everything edited by the time it had to be out, allowing me to get it into different folders, so that all I had to do when I came in was put it together. If something didn't fit, they helped edit it. If I needed a picture, they went and found one, and were so nice about it.

I would have been a paper trail from the beginning because it was such a good experience and you guys are awesome to work with. We had some very long times in the office working, and you guys doing stupid stuff, and of course you two are always on your cell phones. I'm gonna miss this very next year.

So I'm thinking about joining and working with any of the student publications I HIGHLY suggest it. You will learn SO much, and it is really cool to have a hard copy of your work to put into your portfolio.

A BITTERSWEET GOODBYE
SHANE NORRIS
Back in the 50's The Verse released a song called "Bitter Sweet Symphony," the song as a whole has a melancholic sound almost pessimistic, but some parts of it seem to describe the past 365 or so days of my life. Namely, "I am here in my mold," but I am a million different people from one day to the next," this line seems to fit me perfectly as the Editor of The Chanticleer this year. I feel like over the past year I've spent exploring every different twist and turn of my personality as I've dealt with and met people from all over campus and off campus and all walks of life.

This has been one of the most challenging, and at the same time, most rewarding years of my life. Though I can fully say I'm ready to pass the torch on to next year's staff I would never trade the experiences I've gained as your Editor. I'd like to use my last editorial to address a few people who have been a huge part of my life lately.

Firstly, you, the readers. Without you I would not have the job I'm handing over every second. Thank you for being accepting of the changes that my staff and I put into effect this year. Thank you for your criticisms and of your compliments. Thank you for just picking up a paper every week or taking one from Chad and I as we handed them over on Monday mornings. Without you, there would be no Chanticleer.

Next, Chad, you have probably become the brother I never had this past year. Not only did we get along right away, but we worked together like oil and salt and pepper. We hardly ever had arguments and when we did it was under water the bridge within minutes. You put up with my quirky humor and my occasional bouts of lethargy. Beyond all that, you stepped up when I was gone to track. I agree that even though I was Editor-in-Chief and you were Assistant Editor, that we would probably love me on level ground and that's exactly what played out. I couldn't have gotten through this year without you. Thank you for being there, always, always. Jess, I could not have made it through this year without you. You put up with one of the most frustrating situations I could have had and you handled it through it all. You supported me and pushed me to accept the job of Editor when I got offered and you were understanding and supportive every step of the journey. Thank you.

If you're wondering what will happen to me after May 5, 2012, I will be interning with WBTV News 13 right here in Myrtle Beach this June. From there I plan to see what fair does deliver. If a job is offered after the internship I'll take it, if not I'll find work here for the rest of the year and head to Columbia for grad school at USC. I plan to begin training for triathlons after a long career in track. Wherever I go, though, I never forget this past year, and I'll always be a Chanticleer.

4. What is the name of the NBA player who challenged Godzilla to a game of one-on-one in a Nike ad?
5. What winter celebration calls for lighting red, green and black candles in the Kinara?
6. What kind of birds sing, "When I See an Elephant Fly" from Disney's animated cartoon Dumbo?

QUOTES
"I see humanity now as one vast plant, needing for its highest fulfillment only love, the natural blessings of the great outdoors and intelligent crossing and sélection."
- Esther Bubul

"Forgiveness is the remission of sins. For it is by this that what has been lost, and was found, is saved from being lost again."
- Saint Augustine

"Because I have work to care about, it is possible that I may be less difficult to get along with than other women when the double-stone starts to form."
- Gloria Steinem

"He who rejects change is the architect of decay. The only human institution which rejects progress is the cemetery."
- Harold Wilson

CRIME LOG
4/4/12
Theft from a motor vehicle
The victim came to the CCU DPS office to report a car theft from their vehicle. The victim described the missing property and the circumstances of the incident for the officer. This incident is under investigation.

4/5/12
Simple possession
A CCU DPS officer responded to Ingle Hall to arrest University Housing staff with marijuana. The officer arrested the man and attempted to locate the subject.

4/6/12
Underage possession of alcohol
While on patrol, a CCU DPS officer observed several subjects on a balcony in the Woods residence hall. Due to previous reports of damage in the area, the officer continued to observe the subjects. Two subjects were observed with alcohol. When the officers approached, the subjects entered an apartment. University Housing staff were notified and responded. The subjects were located, informed and released.

4/7/12
Verbal argument
A CCU DPS officer responded to the Woods in reference to a fight. The officer interviewed the victim and the subject at the scene. Both parties admitted to a verbal argument and reported the same events. The on-duty University Housing staff were notified and responded. No criminal charges were needed or reported. This incident is administratively closed.

THE WEEKLY GREEN
ZACH DERIVET
Special Earth Day Edition
April 22 is known in America as Earth Day, a nationally recognized holiday dedicated to raising awareness of the environmental impact we have on the earth.

This year I noticed I have struggled with trying to stay green and realize that the life of a college student may have something to do with it. To solve this dilemma, I searched for answers to help get back on the right track and continue to mini-

S10 off all month packages

They are as follows:
1. Buy environmentally

2. Keep waiting gas.
Check the tire pressure
in your tires regularly
and make sure they are always full.
Full tires increase the mileage
on your car thus saving
less fuel.

3. Save Electric light:
Turn off the lights when
you are not in the room,
wash your clothes in cold
water, only use the dishwasher
when it is full, turn the ther-
mostat down 2 degrees
of what you normally keep
it at, and keep the temp of
your fridge at the highest
setting. Simple as that.

4. Recycle: Between
the papers, plastic cups
and aluminum cans col-
lege students go through
in a day, we are pretty
wanting people if we do
not recycle. If there are
no recycling pick-ups
where you live, there are
ductive recycling centers
throughout Henry County. In fact,
there is one just behind
University Place.
5. Leave: The final
and most important
piece of advice I have
is actually my own. Go
and out what appreciate
bit of land is still un
vaughed here in Henry
Country. Explore the
swamps and rivers on a
kayak, explore the state
parks or try or photog-
graph some of the local
wildlife. The more we
appreciate the place
that we live in the more
likely we are to want
to keep it clean and pro-
tect it from harm.
WHAT'S THE WORD?

COURTNEY MOSER

Each week The Chanticleer asks our readers a random question.

We asked CCU students...

What are you most excited about for CINO Day?

"Anytime free food is on Prince Lawn is a good time."

Courtney Robbino, Freshman History

"Blow up rides. Hands down."

Just Wright, Sophomore Political Science

"If there are wax hands at CINO Day that would be awesome."

Shelby Bates, Junior Communication

CHAUNCEY'S CINEMA

The editors weigh in on upcoming movies

The Five Year Engagement (April 27)
The writers and directors of Forgetting Sarah Marshall tag team up for what looks to be a movie filled with laughs. Jason Segel and Emily Blunt star as a couple whose circumstances had led them to prolong their wedding over and over and over again. Definitely a comedy worth seeing, anything Jason Segel is always worth it.

Safe (April 27)
Jason Statham stars as a cage fighter on the mixed martial arts circuit who is no stranger to brutal beat-downs. When he blows a rigged fight, the Russian Mafia murders his family and leaves him wandering the streets of New York City all alone and scared of ever getting close to anyone in fear of them suffering the same fate. How will he handle his predicament?

The Raven (April 27)
This Edgar Allan Poe tale is brought to life in the thriller that stars John Cusack as Poe himself. When a madman begins committing murders inspired by the famous Poe works, a Baltimore detective is faced with the task of getting in the killer's mind to stop him from carrying out the works.

Favorites:
Book - To Kill a Mockingbird
Band - I like a variety of music, but some of my current favorites are Pixie, LADY Gaga, Flo Rida, Adele, Bruno Mars, and Miranda Lambert.
Food - Most anything Italian
Quote - "The reports of my death were greatly exaggerated." - Mark Twain (As a historian, this is a useful reminder of how I should view my sources).

When you are not teaching what are you doing?
I spend a lot of time traveling, doing research, and writing. Also, sports are my guilty pleasure, especially basketball and football.

What is your greatest accomplishment?
Getting Dr. Brandon Pulley to join me and several other friends at our Zumba class. Or getting a Ph.D. It's a toss up, really.

Who is your Hero and why?
Dr. Linda Cenn is my hero, because she has truly inspired me as a scholar, professor and human. Pass in Boots, however, is a close second. After all, who wouldn't want to be articulate, athletic, well-traveled, ethical/bonnie, multilingual, skilled with a sword, toilet trained, AND humble? Wait. Now, I'm confused as to which one was my Ph.D. advisor. Regardless, they're both awesome.

Words of wisdom for students:
Major in what most inspires you. The choice you make is not for the next four years; it's for the rest of your life. Also, you learn best and are best at the things you love the most.

**AARON BURKE**

Men's Baseball

The junior hurler is 4-1 with a 0.59 ERA and 23 strikeouts in 30.2 innings pitched as of April 9. He also has five saves and has been a main reason to the Chanticleers early season success. Opponents are also hitting .178 against Burke, as they can’t seem to figure him out.

**KORY HAYDEN**

Women's Softball

The true freshman leads the Lady Chants in average (.384), home runs (11), RBIs (35), slugging (.750) and on-base (.459) percentage. Hayden’s bat has been a huge boost to the lineup this season and has propelled the Chanticleers to a 30-13 overall record as of April 9.

**CHANTS STRUGGLE ON FIRST ROAD TRIP OF THE SEASON**

TJ SUNDBERG

The Chanticleers stumbled their way back home on their first road trip of the season.

After starting 16-6 on their home stand, the Chanticleer baseball team went 4-5 on the road where they faced opponents such as UNC-Chapel Hill and conference opponents Radford and Gardner-Webb. The Chants started and ended the road trip with extra inning, one run losses to UNC-Chapel Hill and UNC-Wilmington. Despite the road struggles, three Chanticleers are hitting above the .300 mark and the Chanticleers are still second in the nation in ERA.

The Chants did bounce back in their return home, however. They beat The Citadel 6-2 on April 11, avenging their 3-0 loss to it two weeks ago. After this week’s home series with High Point University, the Chants hit the road again for a four-game road swing that begins with in-state foe Clemson and ends with a series against rival Liberty.

**RUNNING BACK POSITION SPARKS SPRING COMPETITION**

Kim Sherayko

With a few weeks of spring football practices under the new coaching staff underway, the battle at the running back position remains up for grabs.

Entering the 2012 season, the Chants will look for an improvement in the backfield after finishing fifth out of seven Big South teams with an average of 3.5 yards per carry.

Offensive Coordinator Dave Petrino noted to the Sun News there are five players in the mix for time in the backfield, including Jeremy Height, Aaron Jones, Travis Small, Marcus Whitener and Bucky Kennedy.

Small, who started at running back last season for the Chants, has not been able to show the new staff much due to an ankle injury that is unlikely to be healed until after spring. Last season, he led CCU with 432 rushing yards, while averaging 4.7 yards per attempt. Whitener and Kennedy have also been slowed by injury.

The two rushers who have impressed this spring are upcoming senior Height and upcoming junior Jones. Height rushed for 197 yards last season, while Jones added 88 yards.

Two new additions to the Chants running back core will be incoming transfer student Lorenzo Taliafferro and freshman Dwayne Headerson. In order to improve the Chanticleer offense for the 2012 season, CCU will hope to stabilize their running back position, while getting an increased rushing production.
WARRIORS DON’T SHOW SIGNS OF SLOWING DOWN

T.J. SUNDBERG

The #1 ranked ABA team in the country is still from Myrtle Beach. They’ve also two wins away from a championship title in their first season as of April 11.

Behind the immaculate play of former TCU center Maupas Gainsworth, the Warriors are the only undefeated team in the Final Four. Gainsworth leads the Final Four in scoring with 35 points and is second in rebounds and former GCU hoops star Joseph Harris in rebounds with 28. He also has the best performance of the Final Four so far with a 36-point 19-rebound showing against the Jacksonville Giants. As a team, the Warriors lead the field in field goal percentage (47%), free-throw percentage (87%), and three-point shooting (38%).

All the Warriors need to do to complete their championship season is defeat the team who wins the loser bracket in a three-game series, which concludes today, April 16.

"I still cannot believe the run this team is on. Sometimes it takes teams years to find the camaraderie this team has developed in such a short period of time," said team inter Joseph Harris. "The season was just the start of a great thing to come."

APRIL SCHEDULES

BASEBALL
4/17: at Virginia Tech
4/20: High Point
4/21: High Point
4/22: High Point

4/20: Big South Conference
4/21: Big South Conference

MEN’S GOLF
4/19: Big South Conference
4/20: Big South Conference
4/21: Big South Conference

TJ’S TAKE

T.J. SUNDBERG

I’m busy writing an article about the Masters and how Augusta National doesn’t have any women members and how for one week each year it becomes a topic of conversation, but things change. Then my roommate put on the Pursuit of Happiness, which is probably one of the best movies I’ve ever seen. If you haven’t seen it, shame on you.

At the same time this movie was on, I also found out that one of CCG’s favorite athletes is leaving CCG to pursue his own happiness.

CCG’s all-time block leader Sam McLaughlin is heading to law school. And not one source said where he is going yet, but the fact is he’s going because it’s his dream. He’s leaving behind everything he loves, his school, the community center he’s waited to play in for two years, his teammates and closest friends, and his last year of fun before he has to go out in the real world, all for his dream.

But I think I speak for the whole Coastal community when I say we’re going to miss you out there on that basketball court, but we know you’ll do your thing out there for another school and that you’ll do your thing in several courts too.

But getting back to the movie, here’s a quote if you have any non-supporters. “You get a dream, you gotta protect it. When people can’t do something themselves, they want to tell you that you can’t do it. If you want something, go get it.” Period.

Best of luck to you Sam.
