Overcrowding causing growing pains for Coastal

Katie Estabrook
REPORTER | @katieestabrook

As student enrollment and faculty employment continues to climb, overcrowding is becoming a prevalent issue at Coastal.

With multiple construction projects aimed to fix this problem currently underway, administration and faculty have had to be creative with space allocation.

Because of this, some classes are now being held in the library, student union and even in the dorms.

Associate Professor of Communication and incoming Chair of the Communication Department, Dr. Wes Fondren said that these locations offer a unique classroom experience.

“I have been extremely impressed with how the university has tackled this problem,” said Fondren. “I teach a class in the movie theatre and it’s a super cool room. I’m able to show movie clips and have great sound, which you wouldn’t have in a normal classroom. There will be classrooms going on in meeting rooms in the dorms, in part of the library and even the student union will have a couple places where classes will be held. I’ve been impressed with their creativity and their willingness to be flexible.”

Classrooms are not the only areas on campus. As odd as it might sound, one of the surprise effects might be that the faculty members end up being where students are at more, rather than them having to come to us.”

Because of the immediate need for space, even Coastal’s administration make sacrifices.

According to Fondren, Dean Overton is doing all that he can to help the issue with space.

“Even the dean had a temporary wall put up in his office to cut it in half so that he could share his office with someone else,” said Fondren. “Even from the top-down, his willingness to do something unusual for a while to get through this is very encouraging.”

Although inconvenient for some, the overcrowding is tempo-

SGA passes construction notice bill

Jessica Wetzler
REPORTER | @jessica_wetzler

On February 29, 2016, the Student Government Association passed a bill requiring the department of facilities planning and management to post projects affecting roads to the website of major construction projects.

The interest of creating the construction notice bill began during the construction of the cul-de-sac on Chanticleer Drive.

On December 2, 2015, an email was sent out to the student body to give them notice of the construction.

Prior to that date, there had been no explicit notice given by the department of facilities planning and management to the student population regarding the construction.

According to the bill, “The department of facilities planning and management will be required to send mass notification one month prior to the start of any planned major construction projects.”

The bill states that road construction must be included and required to post their status on the website of major construction projects. Emergency construction projects are the only exception to the bill.

A request was made to the department of facilities planning and management to mainatain a separate, up to date and easily accessible database of planned construction projects on their website that would be updated on a daily basis. The website would include a search feature of all current projects.

There is currently a page for the universities design and engineering projects on the universities website.

Spring football

Ian Brooking
REPORTER | @ian_brooking

Spring football practice opened up for the team on March 15 with players and coaches eager to get back on the field.

With 29 recruits from this year’s recruiting class, the Chanticleers return to the practice field with 22 seniors and 17 starts from last year’s team. Last year’s team lost ten starters, including quarterback Alex Ross.

That means all eyes are now focused on who will step up next for the quarterback position in September. Six players are currently battling it out for the starting quarterback position.

Avery McCall is the newest member to join the fight, as he
The Chanticleer
THE STUDENT VOICE OF COASTAL CAROLINA UNIVERSITY

EDITOR’S NOTE
Samantha Bergold
THE STUDENT VOICE OF COASTAL CAROLINA UNIVERSITY

Chanticleer is published weekly in the fall and spring semesters. Letters to the editor are welcome and will be open to everyone in all majors seeking any career.

This seminar will be an opportunity to grow in your public speaking skills, reaching out to all of the common concerns and fears of public speaking,” said Francis-Harris. The speakers at the seminar will be covering a wide variety of topics. The topics covered will be how to get rid of stage fright, how to build a better speech, how to keep the attention of a larger audience, how to sell yourself in a job interview, how to give the sales pitch of your life and how communication skills are vital to your career.

“I absolutely love public speaking and the reality of engaged and effective face to face communication,” said Francis-Harris. “As a graduate, employers will be expecting us to be able to give professional presentations and represent your company seminar as my capstone.”

In the Fall 2015 semester, Francis-Harris took Elizabeth Muckenstrum’s advanced public speaking class. In the class, Muckenstrum discussed the Toastmasters International Public Speaking Association. Francis-Harris then discovered that this was the company she wanted to work with on her capstone.

Francis-Harris said Toastmasters is an amazing organization to be affiliated with. “They have over 15,400 clubs throughout 153 countries,” said Francis-Harris. “They introduce you to huge opportunities in networking, job searching, and public speaking practices.”

Francis-Harris has invited Toastmasters speakers from South Carolina. Professor at Kaplan University, entrepreneur and corporate executive, David Premo, will be presenting his research about how communication skills are vital to your career. The speakers at the seminar also include, the President of the Grand Strand Toastmasters Club, Galina Malchikova, the Toastmasters Speakers Chair, Beth Buffin, the Dean of Students at Francis Marion University, Teresa Johnson Ramey, inspirational speaker and trainer, Erin Brown, a real estate professional, Crystal Frechette and a National Account Director of Sales, Rex Gale. Muckenstrum will also be speaking at the seminar.

In the Fall 2016 semester, a Toastmasters Club will be available for faculty and students. “This club will give you the chance to present different types of speeches in a comfortable setting that welcomes feedback and growth,” said Francis-Harris. “The fun tactics that Toastmasters uses for engaged learning, creates a fun experience for everyone.”

Francis-Harris said the club hopes to be going to seminars and conferences throughout the year to continue being influenced by great speakers who have emerged from the Toastmasters organization.

“Make the most of your life by attending this event and discovering the skills to success,” said Francis-Harris. “Build a better life through communication and become the best you can be.” The seminar will be held on April 3 from 12 p.m. – 4 p.m. in Britain Hall Room 114. If you would like to attend the seminar, please email Natalie Francis-Harris at nf francis@coastal.edu to register.

Coastal Carolina’s Wiggins arrested, suspended following assault charge

Coastal Carolina’s basketball’s starting point guard has been arrested and suspended indefinitely.

21-year-old Shivaughn Wiggins was arrested by Horry County police and booked at 1:37 a.m. on March 17 for third degree assault and battery Saturday morning, according to jail records.

On March 25, Conway police responded to Coastal Carolina University’s Police Department in response to a report at Big Kahuna’s Club on Highway 544. According to police, Wiggins had been taken into custody at Big Kahuna’s Club, Wiggins approached her and attempted to push her away.

The victim said Wiggins slapped her in the face multiple times and pushed her to the ground.

Coastal Carolina men’s basketball’s starting point guard has been arrested and suspended indefinitely.

Moglia wins Humanitarian Award

Head Football Coach Joe Moglia has recently received two awards.

He was awarded the 2015 Eddie Robinson Award in December.

The award is named after Eddie Robinson, who was the College Football Hall of Fame Coach. In 1997, he retired from Grambling State University after 56 years.

The award is presented by the American Football Coaches Association to the head football coach in the Division I Football Championship Subdivision. In 1987, the award was created by The Sports Network. It is voted on by selected sports writers and broadcasters.

On April 21, Moglia will be awarded the 2016 South Carolina Football Hall of Fame Humanitarian of the Year Award.

“I am truly honored to receive such an award,” said Moglia. “I’ve always tried to be the best person I can be. I care about the community.”

Reporters were not able to reach Moglia for comment.

Coastal students possibly exposed to mumps

A confirmed case of mumps, a contagious viral infection, has been identified in connection with Coastal Carolina University.

The Department of Health and Environmental Control released a letter Thursday to alerting students and staff of the possible exposure to anyone who was on campus between March 10 and March 14.

According to Jim Bradley, the Public Information Officer for DHEC, there was no confirmed case of mumps in any Coastal student, but there was potential exposure to the infected student.

Mumps is spread through saliva or mucous, and can be passed around through talking, coughing, sneezing, kissing, sharing drinks or eating utensils, according to the letter.

“People with mumps can spread the virus for two to three days before the salivary glands begin to swell and five days after the swelling begins,” the letter stated.

Any student who develops parotid swelling should avoid close contact with others and notify their health care provider or Student Health Services.

For any questions, call the Student Health Center at 843-349-6543 or DHEC’s Pee Dee Region Health Department at 843-915-8888.

FROM FOOTBALL

signed with Coastal on signing day. There are several returning players from last season hoping to achieve that status. They are looking forward to the start of the season in the fall, according to their coach Joe Moglia.

Coastal’s final FCS home game will be against Hampton University on November 26.

FROM SGA

website, but it is not easily found. Students or faculty would have to search for construction on campus and then go through a list of past and current projects. Some of the links are not up to date and only include major projects including academic buildings and renovations. In the past, the cul-de-sac project, the plans were not listed. Instead, it was listed under the master plan, which is listed under the offices of development.

Majors of the projects listed did not have an email sent out to the student body.

For example, majority of students were unaware of the asbestos breakout in the Singleton building and that a renovation was beginning in fall 2015. Students found themselves confused when trying to find professors’ offices that were posted online, but not accessible.

Senator representing the honors college, Hunter Ofcarcik, has been working on this issue. Ofcarcik said the university did not give enough emphasis regarding the construction of the cul-de-sac.

Ofcarcik said the whole theme of the bill is transparency.

“[It is an] open and current window of what we can already see,” said Ofcarcik.

Ofcarcik conducted a sample study of 100 Coastal Carolina students to get an idea of the effects the construction projects have been on the student body.

74 percent of students said they were unaware of the construction of the cul-de-sac and the construction on Charleston Southern and Furman.

67 percent of students said they were not given sufficient notice regarding the construction of the cul-de-sac.

55 percent of students stated that their commute to class had been negatively affected by the construction of the cul-de-sac.

70 percent of students believed the shuttle routes had been negatively affected by the construction.

The results have a nine percent margin of error.

Overall, the bill will provide current information regarding construction projects and provide more notice for future construction projects.

FROM OVCROWNING

Fondren said that the con-struction and renovations will be completed in the near future.

“Next year, it will get considerably better,” said Fondren. “When Brit II is built, the administration will back up and the science building opens along with the other projects that should be starting by then, we should see an easing of the pressure by spring of next year.”

While Coastal may be expe-riencing growing pains, many other universities are having problems with student recruitment and retention.

Fondren stressed that, although it may be uncomfortable, growth is a good problem to have. “I have been in many universities where schools their problem is that and that a renovation was beginning in fall 2015. Students found themselves confused when trying to find professors’ offices that were posted online, but not accessible.

Coastal’s soccer programs score a new sports complex

Coastal’s soccer program has been exceptional for well over several seasons. The women’s team composed a 12-7-1 record over the past season, while the men’s team finished the season at 13-3-4. Both teams have had a superb year and made the postseason, as the women’s team made it to the Big South tournament and the men’s team made it to the NCAA tournament.

For years, it has been noted that other programs like basketball, football and baseball have gotten more attention and have received higher attendance rates at their games. Despite all of the success the soccer teams have had over the years, the soccer programs have not commanded the attention that the other teams have had. Now, it seems that both the men’s and women’s teams are about to get some well-deserved recognition.

Director of Coastal Carolina Athletics, Matt Hogue said the success of the two programs has been overlooked for long enough. "We’ve had a program under Coach Docking who’s been here for over seventeen seasons and that has been consistently a top twenty-five program that has the ability to compete," said Hogue.

Coach of the men’s soccer team, Shaun Docking, has compiled an overall record of 248-121-29. He led the team to 17 Big South Championships, 12 NCAA tournaments and a winning percentage of 68.1 over the past 19 seasons.

Hogue says that the success of the teams has given the university an incentive to look into building a new stadium to reward the programs. "The men’s and women’s teams have been playing at the field across from Brooks Stadium. "We just felt that this would give us a chance to really showcase soccer, to put it in a place where the facility would be easily accessible," said Hogue. "It would be fan friendly and it would give us an opportunity to do a lot of things that we want to do to provide them not just a great field and a place for fans to sit, but some of the other amenities that you want to have in a facility as well."

"The new soccer complex is only in the architectural stages, with no designs sketched made available to the general public yet," said Hogue that it will more than likely be located across campus on Highway 501, near the tennis facility. "The complex should be able to provide around 1,500 fans with a concessions and merchandise area, give players and officials on site locker rooms and offices for coaches. Construction is said to have a budget of five million dollars.

Fan Appreciation Day

Coastal athletics is hosting a fan appreciation day during the baseball game against Gardner-Webb on Sunday, April 3.

With praise usually directed at the players, this event will give a chance for the athletics department to say thank you to those dedicated and passionate fans that keep the programs alive. Ashley Studebaker, a student who helped with the event, said that the teams will have a chance to express their gratitude to the fans.

"It’s basically a day for the fans to come out and be recognized for their dedication and their loyalty to CCU athletics," said Studebaker. "There will be different teams there and they will show videos of players from different teams saying thanks and other surprises like that."

Studebaker wants everyone to know that fans are the backbone to any athletic program. "It’s going to be fun," said Studebaker. "It’s not going to be a boring athletic event like some people may think. I want people to know that the day is for them. We’re going to have a bounce house, face painting for the kids and Chanticleer and the dance team and the cheerleaders will be there.

Studebaker said that there will be events like a mascot race and other fun events that are not normally at the games. The event begins at 12 p.m. when the gates open and will last the entirety of the game. Grab your friends and family and come out to enjoy a day full of fun fan activities!

Wilson’s winning shot send the Chanticleer’s to the CIT semi finals

Elijah Wilson hit the game winning shot with 2.2 seconds left to send Coastal Carolina to the 2016 final four of the College Insider Tournament.

Wilson finished with 16 points, with eight of those points coming in around the last two minutes of the game. "Being in that situation when there is not much time left, I knew that something big needed to happen in order for us to make the right plays on the offensive end," said Wilson.

After being down by two at the half, the Chanticleers had to fight for every point against Grand Canyon. Coastal Carolina went on a ten point run in the middle of the second half to give them the 52-47 edge on. Coastal Carolina went on a ten point run in the middle of the second half to give them the 52-47 edge on.

After being down by two at the half, the Chanticleers had to fight for every point against Grand Canyon. Coastal Carolina went on a ten point run in the middle of the second half to give them the 52-47 edge on.

"I talked to the three-pointer and then I knocked down a couple more shots and I felt really confident to take that last shot," said Wilson. "I’m glad that my teammates trusted me in taking it.

It was a physical contest between Coastal Carolina and Grand Canyon with both teams fighting on each possession and a total of 32 personal fouls called.

Head Coach Cliff Ellis said it was a hard fought game and it was an excellent game of college basketball. "The fans enjoyed it and you could feel the electricity in the crowd," said Ellis. "Both teams were going hard, battling with each other and that’s all you can ask for in a game like this. I am proud of our team and impressed on how we handled adversity once again."

Coastal’s defense came through to help the Chanticleers pull out a victory. "I attribute this win mostly to our defense because as powerful as Grand Canyon is, we were able to hold them to 58 points and that is some stellar defense," said Ellis.

Tristan Curtis was battling a sinus infection, but was still able to send the Chanticleer’s to the CIT semi finals.

Coastal sweeps Stetson 3-0 in the weekend series

Jessica Weitzer
REPORTER | Coralville, Iowa

Coastal Carolina hosted Stetson University this past weekend, March 24 – 26. With weather delays throughout the weekend, Coastal brought the game on Monday and defeated Stetson 11-2. During the first inning, Coastal made an incredible eight runs, leaving Stetson a lot to work on. Chadwick made the second home run of the day, sending Cooke to home plate. Marks and Reard finished the inning with two runs. Stetson made its only two runs at the top of the third.

By the fifth inning, Coastal added another three runs by Owings, Lancaster and Remillard to score. Owings scored in the bottom of the sixth and Ewing scored in the bottom of the seventh. Coastal closes out the weekend against Stetson with a final game win of 12-2, leaving Coastal winning all three games for the series. The weekend was filled with record breaking plays for the offensive and defensive players. Gilmore said he was very pleased with how this weekend turned out.

Coastal season ends in CIT Semifinal

Ivan Brooking
REPORTER | Coralville, Iowa

We’re also online!

Coastal Carolina’s men’s basketball season came to an end on March 27 after a 66-67 loss to UC-Irvine. The Chanticleers finished the season with an overall record 17-15. With the loss, the careers of four seniors – Jarell Diagne, Tristan Curtis, Marcus Freeman and Aaron Law – came to an end Sunday evening.

“First, I would like to thank my teammates and the coaching staff here at Coastal for all that they have done for me,” said Diagne, who scored 11 points in his final game as a Chanticleer. “It’s been a quick four years and I was able to make many great memories here and I can’t be thankful enough for it.”

Coastal Carolina went 27 percent from the floor and was 6 of 26 from the three-point range.

Coastal was a man down tonight after junior guard Shivaughn Wiggins was arrested on Saturday morning for third degree assault and battery charges, according to Horry County Police Jail Records. Wiggins led the team in steals with 46 and averaged 12.4 points per game.

“We’ve been going through adversity all year long,” said Diagne. “This team is all about the ‘Next Man Up’ mentality and the next man stepped up for us tonight.”

The adversity Diagne is referring to are the injuries that plagued this team all year. Diagne missed senior night due to a bad ankle.

“We did what we had to do to adjust,” said junior Colton Ray- St. Cys, who led all scorers with 14 points. “I got hurt earlier in the season. Marcus got hurt and Michael missed almost the entire season.

Adversity is something we got used to. It happened to the next man definitely stepped up for us.”

Not only did Coastal have it rough when it came to shootings, rebounding was not in favor of the Chanticleers Sunday. UC-Irvine has four players that are six-foot-ten and over, including seven-foot-six Mama-Dou Ndiaye. Coastal’s tallest players are love horses, including Kevin Holmes, Jr., who are both six-foot-nine.

“It was something we hadn’t faced this year,” said Diagne. “Two players that are seven-foot-two and seven-six? That’s something you don’t face every day. That was very difficult to go up against tonight.”

The 2015-2016 season was a historic season for the program here at Coastal Carolina. From traveling to Cuba to then play in the final four runs in the CIT, this team has definitely made its mark in the Chanticleers’ basketball history.

“I’m very proud of our team and what they’ve accomplished this season,” said Head Coach Cliff Ellis. “We have fought injuries all year long and we have never had our full team together and yet this team was able to win twenty games and make it to the final four in the CIT. That’s definitely something to be proud of.”

When asked about Shivaughn’s status, Coach Ellis had this to say: “I really can’t make comments in regards to this situation. All I can say is this, after forty-something years coaching basketball, my biggest issue has been boyfriend/girlfriend stuff and how that plays out in a process.”

No timeframe has been given on the status of Wiggins.

“I love Shivaughn to death,” said Ellis. “I have twenty-five people, whether it be players or coaches, and I’m going to love every one of them. I’m going to love Shivaughn, I’m going to teach Shivaughn and in this case, I’m going to discipline Shivaughn. That’s all I have to say about that.”

Coastal finished the season with 20 plus wins for the fifth time in the last seven years. For the seniors they have accomplished many things during their time here at Coastal Carolina University. Two Big South Tournament Championships, two NCAA Tournament appearances and now final four appearance in the CIT. The Chanticleers have a transition in the Sun Belt Conference for the 2016-2017 season.

The Coastal Carolina’s men’s basketball team will commemo rate this season at the team awards banquet on Wednesday, April 13 at 7 p.m. in the HTC Center. Registration is open to the public and tickets are $45 per person or $250 for a table of eight. Please RSVP by Friday, April 8 by calling the Coastal Carolina Ticket Office at 843-347-8499.

The album's first single, 'Promise Everything,' boasts what already makes Basement a great band to begin with. Andrew Fisher's catchy hooks, lyrical entanglements of desperation and attraction, and instrumentation that bends, but does not break.

Basement’s recent release, ‘Promise Everything,’ kicks the perennial dream of experimentation to the curb to explore blending past hits into one album. ‘Promise Everything’ is a worthwhile yet unwieldy comeback since 2012’s, ‘Coloursandkindness.’

‘Promise Everything’ boasts what already makes Basement a great band to begin with. Andrew Fisher’s catchy hooks, lyrical entanglements of desperation and attraction, and instrumentation that bends, but does not break.

These principles are on full display from the get go, as the boisterous and melodic ‘Brother’s Keeper’ sounds like a savory mixture between Basement’s old and new music, while successfully igniting a compelling tone for the record.

The album’s first single, ‘Promise Everything,’ exudes the band’s punk roots with wails and breakdowns that would make I Wish I Could Shoot Here heartthrobs melt. There is a reason this song was picked as the first single.

‘Aquasun’ brilliantly carries sounds linked to the 90’s, the Jurassic Park movies were very scary kind of predictable. The only thing I really enjoyed was watching this film.

In my opinion, this film was definitely not better than the original films. Being a kid that was born in the 90’s, the Jurassic Park movies were very scary and would perfectly find their place in an intricate coming of age film. The people who work at the theme park develop dinosaurs.

This allows Zach and Gray to roam the world by trying to keep up with them. Claire is one of the managers of the theme park. She does not receive the kids well and does not really try to keep up with them.

‘Blinded Eye’ is a fun track that evokes straight up classics like that, but a lot of people would disagree after watching this film.

‘Irreplaceable’ Go to the left, to the left, definitely not to the right. This song is for all those independent women out there who do not need a man. Beyoncé delivered in this anthem and made breaking up not seem as bad.

‘Crazy In Love’ ft. Jay-Z This was close to the start of Jay-Z and Beyoncé's beautiful love story. The beat of the song makes you want to shake your tail feather and go crazy for the one you love.

Jurassic World

Halle Bonds
REPORTER | @HalleBonds

Jurassic World puts a modern twist on the original Jurassic Park films. The new breed of dinosaur could be potentially dangerous, if not kept in its cage.

In my opinion, this film was definitely not better than the original films. Being a kid that was born in the 90’s, the Jurassic Park movies were very scary. I really did not have as much suspense and some built into it. The plot line was kinda predictable. The only thing I really enjoyed was the innovation behind it.

I really would want to go to an amusement park like that, but a lot of people would disagree after watching this film.
